51. **Read the letter below carefully and then answer in full sentences, the questions that follow**

Busiula P/S,
P.O. Box 139,
Bugiri-Uganda
2nd April, 2020.

Dear Patel,

Thank you for your letter which was full of news. It is quite interesting that India too has a Universal Primary Education System.

In your letter, you wanted answers to a number of questions concerning our Universal Primary Education (UPE) in short. First, you asked about the number of children who have benefited from UPE system. Well, the number of primary school-going children has increased suddenly from around two million in 2002 to about seven million in 2019. My country shall soon boast of a literate population.

Secondly, you wanted to know the attitude of my people towards the girl-child. You know, before UPE was introduced, most Ugandans believed that girls were expected to do nothing else but to remain at home to do all types of work. Funny enough, even girls and women had this same view about themselves. The girls could be married off at quite an early age. Imagine, a girl of thirteen years of age being proposed for marriage!

Well, my dear Patel, things are now different. The girls are reading hard and many of them have reached high levels of education and have been appointed to top jobs in the country. We, for example, have over a dozen women holding high posts in government. Can you imagine the speaker of parliament is a woman? The speaker and other fellow women are fighting for the rights of the girl-child in my country.

It is my hope that I have answered your questions. Please let me know in your next letter something about your secondary education system. Once more, thank you for writing. Please extend my best greetings to your family.

Yours sincerely,

Ochola Peter Aluis

52. **Read the following poem carefully and then answer, in full sentences, the questions that follow.**

I have a dream.....
That one day in the future all the little girls
And little boys in this country
Will be great women and men
Governing this country
In a spirit of love.

I have a dream.....
My little boy will not despise my little girl
Because she is a girl
And that my little girl will not hate
My little boy because their daddy will have left him
All the wealth because he is a boy.

I have a dream.....
That a day will come when
All our little boys will be
Responsible fathers educating their children
And all our little girls will be
Loving mothers caring for their children.

I have a dream.....
That one day all our little girls and little boys
Will work hand-in-hand with their children
Singing songs of love and freedom
In a world where there is no hatred
In a world covered with flowers and love.
