### SECTION B

51. Read the passage below and answer the questions that follow in full sentences.

Last year, in primary six, our teacher of Intergrated Science, Mr. Mukoke Coleb taught us about farming. He told us that, "Farming is the growing of crops and rearing of animals. He added that some people practice farming both on small and large scale basis.

In our village Kakuuto, Isingiro district, many people practice farming. Those farmers with enough land plant large plantations of matooke, coffee, maize, beans and cotton. These crops are later sold to businessmen who take them to

the factories for processing and others sell them in big towns like Mbarara and Kampala.

On the other hand, there are farmers who opted for animal keeping. These keep cows, goats, sheeps and rabbits. Many farmers prefer dairy cattle since they produce a lot of milk which is sold for money.

However, farmers have decried of many challenges facing farming; long periods of drought, pests and diseases but majorly thieves who unlawfully take animals and harvests at night. The police has promised to curb the vice and farmers are encouraged to be vigilant and take care of their property to avoid such incidences..

53. Read the poem below and answer the questions about it in full sentences.

They say women cook,  
They roast, bake and fry,  
Of all these they say,  
A woman loves baking the most.

Baking is the process of creation,  
The oven is the womb place of creation,  
Bread and cake heat is timed,  
Checked from time to time.

Without opening the oven,  
Or disturbing it in any way,  
Till time is ripe,  
Gentle expectations are at hand.

And a new warm baked bread or cake,  
Is delivered gently by hands,  
To beautifully laid plate like,  
The birth of a baby is laid in a cradle.
