a) Name parts labelled.

i) W _____

ii) P _____

b) Why is the above toilet built in such away that some water remains after flushing?

c) What is the importance of part Q in the above toilet?

50. Complete the table below correctly.

Deficiency disease.	Causes
Marasmus	i) _____
ii) _____	Lack of iron
Rickets	ii) _____
iv) _____	Lack of vitamin B3

51a) State the importance of cattle keeping the following structures in cattle keeping.

i) spray race _____

ii) Foot bath _____

b) Outline the importance of carrying out the following cattle management practices.

i) Ear tagging _____

ii) Dehorning _____

52a) What is "an essential drug".

b) Write down one example of an essential drug.

c) Give any **one** danger of taking unprescribed drugs to a patient.

d) State any **one** condition under which drugs should be stored.

53a) Mention **two** ways how some plants are adaptive to desert conditions.

i) _____

ii) _____

b) Why is transplanting of seedlings usually done in the evening?

c) How does the presence of sunlight increase the rate of transpiration?

54a) The diagram below represents an underground stem, study it carefully and answer questions that follow.

a) Name the type of underground stem shown above.

b) Give **two** examples of underground stems above

i) _____

ii) _____

c) Name part X.

55. In **four** statements, explain how you would give First aid to a victim of near drowning.

END
