.....
.....
6. Why is it important to have a school garden in every school in Uganda?
.....

Study the diagram below and answer the questions that follow.

7. Complete the ray in the diagram above.

.....

.....

8. Name the angle labeled K in the above diagram.

.....

.....

9. At what temperature does water become a solid?

.....

.....

10. How are viviparous animals different from oviparous animals?

.....

.....

11. Name the excretory organ that is affected by hepatitis disease.

.....

.....

12. Besides protection, why are the fangs useful to a boomslang?

.....
.....

13. Mention the group of birds to which the crested crane belongs.

.....
.....

14. Why is it not advisable to use water to put off fire caused by petrol?

.....
.....

15. Give one reason as to why drought is referred to as a block in a food path.

.....
.....

16. Calculate the work done when force applied is 12kg and distance is 4cm.

17. What scientific name is given to liquids that conduct electricity?

.....

18. Where in the alimentary canal is hydrochloric acid useful?

.....
.....

19. Name the structure used by bacteria to locomote.

.....

20. How useful is a transformer in an electric circuit?

.....
.....

The diagram below is of a banana plant. Use it to answer questions 21 and 22.

21. Name the part named K.

.....
.....

22. How is the above plant propagated?

.....
.....

23. Name the insect vector that breeds in fast flowing water.

.....
.....

24. Why do germinating soya bean seeds need oxygen?

.....
.....

25. How does scabies spread from one person to another?

.....

26. Where does chemical digestion start from in humans?

.....
.....

27. Which gas do plants use at night?

.....
.....

28. What is the importance of lobsters and crabs to man?

.....
.....

29. The hind legs of frogs and toads are longer than the fore legs. How is this important to them?

.....
.....

30. Name the energy resource from plants made by burning wood under limited supply of oxygen.

.....

.....

31. How are halteres important to a white ant?

.....

.....

32. Why is a person with blood group AB referred to as a universal recipient?

.....

.....

The diagram below shows water being heated from one end of the saucepan.

33. What does the diagram illustrated?

.....

.....

34. What would happen if the filament of an electric bulb was non-metallic?

.....

.....

35. How do plants purify the environment?

.....

.....

36. Name the type of reproduction which involves the union of male and female gametes.

.....

.....

37. Why do wind pollinated flowers produce a lot of pollen grains?

.....

.....

38. Give a reason why some goat farmers carry out ear notching to their goats.

.....

.....

39. What scientific name is given to part of milk left after butter has been removed from it?

.....

.....

40. Write down one product obtained from petroleum.

.....
.....

SECTION B (60 MARKS)

41. The diagram below shows a pinhole camera. The image of the object in front has been formed on a screen.

a) Draw on the diagram the image of the object formed by the pinhole camera.

b) Give three characteristics of images formed by a pinhole camera.

- (i)
- (ii)
- (iii)

(i)

(ii)

b) State two ways of controlling soil exhaustion

(i)

(ii).....

44. The diagram below is of a garden peas.

a) Name the structure labeled P.

.....

.....

b) What is the function of the structure you have named above?

.....

.....

c) What type of venation do the leaves above have?

.....

d) Name the plant system that makes up part marked K.

.....

45. a) Which process enables the liver to make poisonous substances of metabolism harmless?

.....

.....

b) Write down any one toxic material made harmless by the liver.

.....

.....

c) How can you as P.7 candidate care for the liver?

.....

d) Name one disease that affects the human liver.

.....

46. What do the following animals use as weapons?

i) Elephants.....

ii) Dogs.....

iii) Bulls.....

iv) Scorpion.....

47. Use the diagram below to answer questions that follow.

a) What does part Q lead to?

.....

(b) Letter Z shows a developing baby 6 months old. What is it called at that age?

.....

.....

c) What do you call babies who are produced from?

(i) One fertilized egg?

.....

(ii) Two different fertilized eggs?

.....

48. a) Complete the table below correctly.

Tropism	Stimulus
i) Phototropism
ii)	Water
iii)	Gravity

b) State one way plants control water loss during long dry seasons.

.....

49. a) Which term is used to refer to a recovering patient undergoing treatment?

.....

.....

b) Write down two ways of caring for a person in (a) above.

.....

.....

c) What scientific name is given to a person who is very ill?

.....

.....

50. a) State one chemical method of controlling weeds in the garden.

.....

b) Mention any two uses of weeds to people.

.....

.....

c) How are weeds dangerous to crop farmers?

.....

51. a) Name the mammal that spends its life both in water and on land.

.....

b) Mention the fat layer that helps to keep the whale warm in water.

.....

c) Give a reason why spiny-anteater is special from the rest of other mammals.

.....

.....

d) Name the mammal that moves by flying.

.....

52. a) What do the following terms mean in the process of making starch.

(i) Photo.....

(ii) Synthesis.....

(b) How are the following useful during photosynthesis?

i) Sunlight.....

ii) Chlorophyll.....

53. a) Give the difference between Hand milking and Machine milking?

.....

.....

(b) Write down three procedures taken by a dairy farmer in the preparation for milking.

i)

ii)

iii)

54. (a) Why does an earthworm die when oil is poured on its skin?

.....

b) How does an octopus move?

.....

c) Give any one danger of garden snails to crop farmers.

.....

d) Beside sensing danger, write down one other use of tentacles to a snail.

.....

55. Study the diagram below and use it to answer the questions that follow.

a) To which group of simple machine does it belong?

i).....

ii).....

b) How is the above garden tool useful to young farmers' club members at school?

.....

c) Mention any two ways of protecting the above garden tools from rusting.

.....
