SECTION B (50 MARKS)

51. Read the passage below carefully and then in full sentences answer the questions that follow.

Poultry farming is one of the most profitable business in Uganda today. Poultry farmers keep chickens for egg production and others for the purposes of getting meat. Apart from chickens, poultry farmers also keep ducks and turkeys. Ducks and turkeys do not have a large market because they are a bit expensive compared to chickens. So, most people cannot afford them.

In our sub-county, the famous poultry farmer is Mr. Caleb. He keeps over two thousand birds on his farm. He majorly keeps chickens for meat production. He says that chickens mature quickly and their market is readily available. Hoteliers and restaurateurs are the most people that provide market to his chickens. He sells over fifty chickens every day at a price of ten thousand shillings each. He uses the money he gets to educate his children and look after his family. The chicken droppings are used in the garden as manure. This explains why Mr. Caleb has the largest banana plantation in the area. So, he advises all people to try poultry farming to harvest money quickly.

Besides chicken, Mr. Caleb has a total of fifty ducks and thirty turkeys on the farm. He keeps these birds majorly for egg production. The eggs are not sold but they are eaten at home to provide proteins to his family members. His children and wife are very healthy and admirable in our sub-county. So, it is my appeal to everybody to keep birds at home for both financial and domestic benefits.
