SECTION B

51. *Read the passage below and answer the questions that follow in sentences.*

For quite some time, I had been wondering why my mother praised banks. I never knew their importance. I got the answer to this when I visited Centenary bank – Mukono Branch last Wednesday. It was our teacher's idea to take us there because he was going to teach us about banking.

We boarded the school van and reached the bank at 10:00am. Smartly dressed cashiers welcomed us and the branch bank manager introduced them to us. I wondered whether our teacher Mr. Olouch Owen had informed them about our visit. Everything was in order. The bank manager told us the importance of banks to people, for example giving loans. That did not interest us like keeping our school fees safe.

We were excited when we were given bank slips to fill in. The tellers helped us to fill in these forms together with our teacher of English. At the end of this exercise, we went back to school very exhausted but at least we had learnt how to deposit our school fees.
