SECTION A: 40 MARKS

Answer all the questions in this section

Questions 1 to 20 carry two marks each

1. Work out: $98 \div 8$

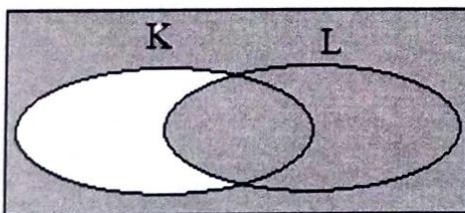

2. Write 196,342 in words.

.....
.....

3. Simplify: $3(w - 2) - 2(w + 3)$

4. Write 3800 in standard form.

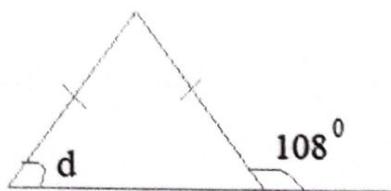

5. Describe the shaded region in the figure below.

6. Write CDLXV in Hindu Arabic numerals.
7. Find the least number of oranges given to 15 or 18 pupils leaving 3 as remainder.
8. Solve: $\frac{3}{P} = 4$ (finite 5)
9. Round off 6372 to the nearest hundreds.

10. Work out the mean of $3n$, 7 , $n + 1$ and 4 .

11. Find the value of d in the figure below.

12. Express $4m^2$ to cm^2

13. If today is Tuesday, what day of the week was it 39 days ago?

14. Solve: $6 - 2n = 2$

15. Using a ruler and a pair of compasses, construct an angle of 105° .

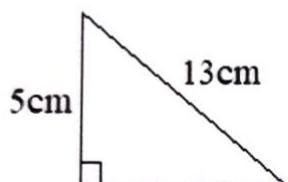

16. Express $0.\overline{2333}.....$ as a simplified common fraction.

17. A motorist covered 400m in 20 seconds. Calculate the motorist's speed in km/h

18. A trader sold a belt at sh.3000 and made a profit of sh.600. Calculate the trader's percentage profit.

19. The LCM of two numbers is 90 and their GCF is 3. If one of the numbers is 18, find the second number.

20. Work out the distance around the figure below.

SECTION: B (60 MARKS)

Answer **all** questions in this section.

Marks for each part of the question are indicated in the brackets

21. In a class, 24 like Maths (M) only, n like both Science (S) and Maths. The number which likes science only is thrice those that like both subjects while $n + 2$ like other subjects.
- a) Use the above information to complete the Venn diagram below. (02 marks)
-
- b) Given that 28 pupils like Science, find the value of n . (2 marks)
- c) How many pupils are in the class? (1 mark)

22. a) Work out:
$$\begin{array}{r} 2 \ 3 \ 2_{\text{five}} \\ - \ 3 \ 4_{\text{five}} \\ \hline \end{array}$$

(2 marks)

b) Given that; $301_p = 144_{\text{five}}$. Find the value of p

(3 marks)

23. The sum of 3 consecutive even numbers is 42. If the largest number is g.

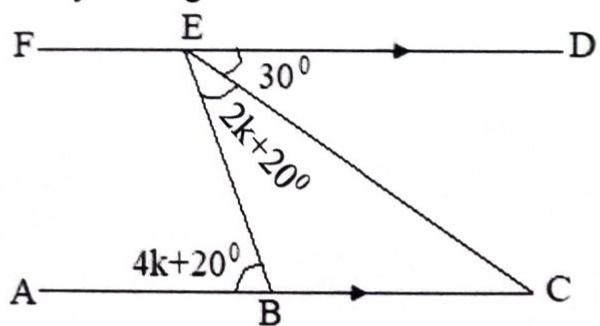

a) Find the value of g.

(3 marks)

b) Work out their range.

(2 marks)

24. Study the figure below and use it to answer the questions that follow.

a) Find the value of k

(2 marks)

b) Work out the size of angle CBE.

(2 marks)

25. A hen costs sh.12,000 less than a cock and a turkey costs twice as much as a cock. If their total cost is sh.96,000. Find the cost of each bird. (5 marks)

26. a) Using a ruler and a pair of compasses only. Construct a triangle PQR where $PQ = 7\text{cm}$, angle $PQR = 60^\circ$ and angle $QPR = 45^\circ$. Drop a perpendicular line from R to meet PQ at point O. (4 marks)

b) Measure the length RO (1 mark)

27. Aminah went shopping and bought the following items;

- 3kg of rice at sh.15,600
- $1\frac{1}{2}$ litres of cooking oil at sh.7,000 per litre
- 500gm of meat at sh.14,000 per kg
- 2 packets royco at sh.1,000

a) Calculate her total expenditure. (3 marks)

b) If she was offered a discount of 5%, how much money did she pay for all the items? (2 marks)

28. The table below shows the performance of a P.7 class in a math test. Use it to answer the questions that follow;

Marks scored	65	P	70	25
No.of pupils	2	3	1	4

a) How many pupils did the test? (2 marks)

b) If their average score was 48, find the value of P. (3 marks)

29. A tank is $\frac{2}{5}$ full of water. When $\frac{1}{6}$ of the water was sold, 6000 litres remained. Find the capacity of the tank. (4 marks)
30. A motorist left town P travelling at a speed of 90km/h for 2 hours to town Q. If he returned to town P at a speed of 60km/h.
- a) Find the distance between towns P and Q. (2 marks)

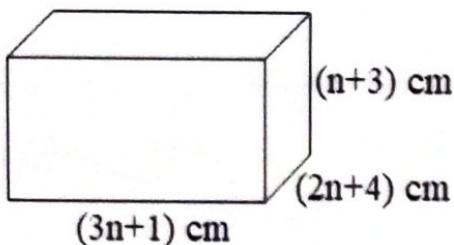

b) Workout the average speed for the whole journey. (3 marks)

31. On a farm, there are 40% more cattle than goats.

a) Find the percentage of goats on the farm. (3 marks)

b) If there are 42 cattle, find the total number of animals on the farm.
(2 marks)

32. The sum of all the edges on the figure below is 104cm.

a) Find the value of n . (2 marks)

b) Work out its volume. (3 marks)

SECTION A

1. Name any one group of organisms involved in soil formation.

.....

2. How can parents protect their children against kwashiorkor?

.....

.....

3. What is the importance of a shade on a nursery bed?

.....

.....

4. State one way in which plants depend on animals in the environment.

.....

.....

5. Of what function are flowers to a plant?

.....

.....

6. Write any one principle of Primary Health Care.

.....

The diagram below shows part of the human skeleton. Study it and answer questions 7 and 8.

7. Name the movable joint located at the point labeled Y.

.....

8. Identify any one injury that can occur at point Y.

.....

9. State one characteristic of seeds dispersed by water.

.....

10. Give any one condition that can make man vulnerable.

.....

11. How does the practice of keeping fish in a pond at home control malaria?

.....

.....

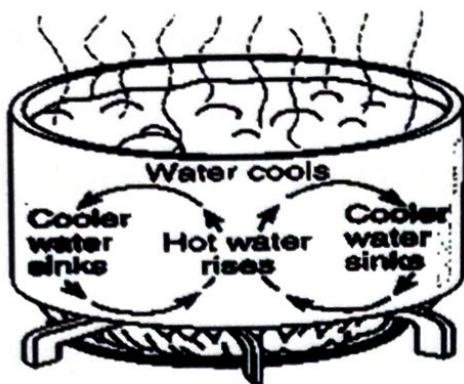

12. Mention one natural method on birth control.

.....

13. How does sun drying help to preserve harvested crops?

.....

Below is a method of heat transfer. Use it to answer the questions 14 and 15.

14. By what process does heat travel through the boiling water?

.....

15. What do the arrows in the water represent?

.....

16. Give one function of blood plasma.

.....

17. Identify any one disorder of the human teeth.

.....

18. State one way in which plants are used as energy resources.

.....

19. Mention any one example of a chemical change that requires oxygen to occur.

.....

20. What is the main duty of the drone bee in the colony?

.....

.....

21. Write one characteristic of arthropods.

.....

22. In which way are plant leaves adapted to making food?

.....

.....

23. Form a correct food chain using the organisms.

Squirrel, groundnuts, bacteria, python.

.....

.....

24. What do we call the frequent passing out of watery stool with blood stains?

.....

25. Name the type of root system drawn below.

.....

26. How do earthworms increase air circulation in the soil?

.....

.....

27. Why should a rain gauge be placed in an open area while
doing its work?

.....

.....

28. Give the function of halters to a housefly.

.....

.....

29. Name the breed of goats kept for mohair.

.....

.....

30. What role does sugar play in the Oral Rehydration solution
given to a cholera patient?

.....

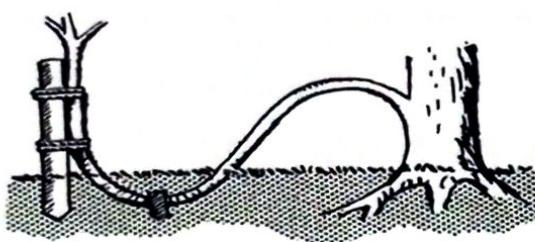

31. State the energy change that takes place in a bicycle dynamo.
-

32. Give any one characteristic of enzymes.
-

33. Write one method of applying fertilizers in the garden.
-

34. How are birds able to cover viscosity friction during flight?
-
-

The diagram below shows a method of propagation. Study it and answer the question that follows.

35. Name the method of plant propagation shown in the diagram above.
-

36. In which body organ does filtration of blood take place?
-

37. State one effect of smoking to a pregnant woman.

.....
.....

38. Name the fungus that normally develops on the left over foods.

.....

39. How is a kink of a clinical thermometer similar to the valves of the human heart?

.....
.....

40. A vacuum flask is an important device in a home. Why is it not common in rural homes?

.....
.....

SECTION B (60 MARKS)

41. a) Which tissue joins muscles to bones at the joint?

.....
.....

b) Mention any two examples of involuntary muscles.

- (i)
- (ii)

c) State any one function of the human skeleton.

.....

42. a) Give any one cause of accidents at home.

.....

.....

b) Identify the type of accident which involves the following first aid activities;

i) applying clean cold water on the injured part.

.....

ii) tying splints around the injured part.

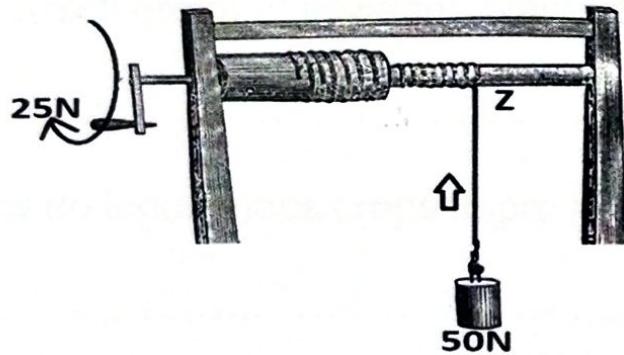

.....

c) Why should milk be given to a person who has taken rat poison?

.....

.....

43. Below is a diagram of a simple machine. Study it and answer the questions that follow.

a) To which group of simple machines does the machine belong?

.....

b) Name the part of the machine labeled Z.

.....

(c) Use letter E to indicate the position of the effort on the machine.

.....

(d) Calculate the mechanical advantage of the above machine.

44. (a) Mention one example of a leguminous crop.

.....

b) State one characteristic of leguminous crops.

.....

c) To which group of flowering plants do legumes belong?

.....

d) How do leguminous crops improve soil fertility?

.....

a) To which group of simple machines does the machine belong?

.....

b) Name the part of the machine labeled Z.

.....

c) Use letter E to indicate the position of the effort on the machine.

.....

d) Calculate the mechanical advantage of the above machine.

44. (a) Mention one example of a leguminous crop.

.....

b) State one characteristic of leguminous crops.

.....

c) To which group of flowering plants do legumes belong?

.....

d) How do leguminous crops improve soil fertility?

.....

45. a) State any two indicators of poor sanitation in a home.

i).....

ii).....

b) Mention two dangers of poor sanitation in a home.

i).....

ii).....

46. a) Mention two methods of preparing food to make it ready for eating.

(i).....

(ii)

(b) What is the importance of cooking meat before eating it?

.....
c) Why do most people cover food during the process of cooking?

47. a) State the law of magnets.

.....

.....

b) Give any two uses of magnets in our daily life.

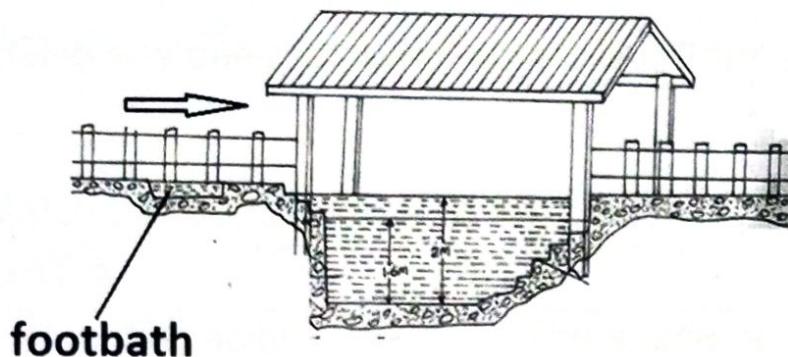

ii).....

ii).....

c) Identify any one way in which magnets lose magnetism.

.....

48. The diagram below shows a routine practice done on a certain cattle farm. Use it to answer the questions that follow.

a) Name the routine practice shown in the diagram above.

.....

b) How important is the above practice on a cattle farm?

.....

c) Give the importance of a foot bath on the above structure.

.....

d) State **one** cattle pest that can be controlled using the above practice?

.....

49. a) Mention any two examples of tuber crops.

(i).....

(ii).....

b) Write one method used to harvest tuber crops.

.....

c) Give any one method of controlling tuber crops.

.....

50. Match the items in list A to their meaning in list B.

LIST A	LIST B
i) Capacity	- The space occupied by an object.
ii) Volume	- The amount of matter in an object.
iii) Mass	- Gravitational force acting on an object.
iv) Weight	- Amount of liquid a container holds. - How light or heavy an objects.

i) Capacity

ii) Volume

iii) Mass

iv) Weight

51. a) Give two waste products removed from the body by the lungs.

i).....

ii).....

b) Why are lungs grouped under excretory organs?

.....

c) Mention one antisocial behavior that damages the lungs.

.....

52. a) Write one type of poultry reared in Uganda.

(i)

(b) Why is poultry called a business?

.....

(c) State one cause of poultry vices.

.....

(d) Give any one way farmers control vices on their poultry farms.

.....

53. The diagram below shows a type of tooth. Use it to answer questions that follow.

(a) Identify the type of tooth drawn above.

.....

(b) Name the regions of the tooth labeled

K.

L.

(c) How is the above tooth adapted to its function?

.....

54. (a) Which type of immunity is got through immunization?

.....

b) Give one method used to administer vaccines to babies.

.....

c) How is a child health card useful to the;

(i) mother

(ii) nurse.....

55. a) State two characteristics of images formed by plane mirrors.

i).....

ii).....

b) Why are plane mirrors called optical instruments?

.....

c) State any one use of plane mirrors in our daily life.

(Rewrite without: "and", "who", or "which")

.....
.....

50. The candidates are getting set to take their PLE.

(Rewrite the sentence using:.....look forward.....)

.....
.....

SECTION B

(Questions 51 to 55 carry 10 marks each)

51. Read the passage below and answer in full sentences the questions that follow.

Our school choir had made it to the National Music competitions. It had two weeks to polish the items before the competitions began.

Mr. Balikudembe worked so hard that his choir members mastered everything. They sometimes had their practice in the nights.

On 1st July 2023, the day for the National Music Competitions reached, different school choirs from different districts in the country met at the National Theater. They competed in set pieces, instrumental compositions, sight singing, traditional folk songs and traditional folk dances. These competitions took a period of two weeks. This is because a lot of schools participated in it. A few items were presented per day. The competitions were very stiff as most of the choirs had done enough practice.

At the end of the two weeks, the adjudicators commented on the different presentations before announcing the winners. Our school choir won the competitions and was given a trophy. Jubilations foiled the air when the trophy was brought to school. The teachers and the children danced around the school compound. Sr. Muyita John Grace, our head teacher, gave presents to the choir members and a big refrigerator to Mr. Balikudembe.

He thanked everyone in the school for the support they had given to the school choir. He encouraged everyone to go on with the same spirit in order to win in other competitions.

a) What is the passage about?

.....
.....

b) How many weeks did the writer's school choir have to prepare for the National Music Competitions?

.....
.....

c) Who was the choir master of the school?

.....
.....

d) When were the competitions held?

.....
.....

e) Where did these competitions take place?

.....
.....

f) In how many items did the different school choirs compete?

.....
.....

g) For how long did the National Competitions take place?

.....
.....

h) Which school choir emerged champion in these competitions according to the passage?

.....
.....

- i) Give another word with the same meaning as the underlined words in the passage.
- i. a period of two weeks
- j) Give the above passage a suitable title.
.....

52. Read the notice below which appeared on one of the notice boards of Katoke Primary School, Iganga on 3rd June 2023 and in full sentences, answer the questions that follow.

STAFF MEETING

The head teacher hereby invites all teaching staff to a meeting.

Venue: Staffroom

Date: 5th June 2023

Time: 2:45 p.m.- 4:45p.m.

Theme: Performance of the pupils

Chairperson: Deputy head teacher

DON'T MISS

Kuweitii Angel

Secretary

3/06/2023

- a) Who was being invited to the meeting?

.....
.....

- b) Who invited the staff to the above meeting?

.....
.....

c) Where was the information above pinned?

.....
.....

d) Why has the staff been invited to that meeting?

.....
.....

e) Who wrote the above information?

.....
.....

f) Where will the meeting be held?

.....
.....

g) When was the notice written?

.....
.....

h) On which day will the meeting take place?

.....
.....

i) At what time will the meeting commence?

.....
.....

j) What role will the deputy head teacher play during the meeting?

.....
.....

53. Read the poem below and answer in full sentences the questions that follow.

I know I am two-legged,
And my friend is four-legged
I am used on the road,
But I have never seen my friend in the air,
Whom they say is more important!
I don't use the daily food, like my friend does.

My friends take people to various places,
I have never failed to do the same,
He carries their baggage,
I also have a carrier,
But they say he is more important.

You sit in my friend to drive,
I also have a saddle where you sit while riding me,
His steering wheel helps you change direction,
But they say he is more important than me,
Because he moves faster than me,

When my master gets rich,
He puts me aside,
He starts moving with my friend
Without his daily food, my friend can't move,
In narrow paths, I am the only one,
Master, when will you see my great importance?

a) What does the writer of the poem know?

.....
.....

b) Where is the writer's friend used according to the poem?

.....
.....

c) How many stanzas are in the poem?

.....
.....

d) What does the writer want his master to see according to stanza four?

.....
.....

e) According to the poem, when is the writer put aside?

.....
.....

f) What does the phrase "daily food" mean?

.....
.....

g) Who do you think is talking in the poem?

.....
.....

h) Give another word or group of words with the same meaning as the underlined words in poem.

(i) baggage.....

(ii) various.....

i) Give a suitable title to the above poem.

.....

54. The sentences below are in a wrong order, arrange them to form a correct story.

- a) The family then gathered and watched the new TV that was bought.
