g) Which post had the highest number of aspirants?

h) Who was the oldest female candidate in the election?

i) What was the name of Esesi Sirage's campaign manager?

j) How many posts did the pupils contest for?

53. Read this poem and use it to answer the questions that follow in full sentences.

My beautiful daughter, don't drop out of school

Avoid sugar daddies to keep safe

The money and gifts they give you

Reject everything and revise your books

Don't think about marriage at your age

Listen to me, my beautiful daughter

Our hopes to build a good house in future

And buy cars and land lie in your hands

Avoid sugar daddies and concentrate in class

The future is bright when you are educated

My beautiful daughter, dress decently

Avoid wearing short dresses and skirts

That expose your beautiful thighs

For this act attracts sugar daddies to you

Beware of HIV/AIDS to keep safe

a) Who should the writer's daughter avoid to

be safe?

b) Apart from money, what else must the beautiful girl reject?

c) Why do you think the beautiful girl can't get married now?

d) When will the beautiful girl's future be bright?

 13. Name the vaccine given to babies at birth through injection.
 14. State any one factor that reduces the rate of transpiration.
 15. Which method of making alcohol involves the use of yeast?
 16. What good health habit would you use to remove and kill harmful bacteria on hands affect egestion?
 17. Name the group of worms that have unsegmented bodies.
 18. How is sun drying helpful in the preservation of food crops?
 19. Give any one measure that can protect water

contamination from water sources.
 20. Name the mineral salt that helps in the formation of red blood cells in the human body.

21. State any one danger of heat in the environment.
 22. Give any one factor that leads to the outbreak of snuffles in rabbits.
 23. Give any one way of caring for elderly people at home.

The diagram below shows a musical device. Use it to answer questions 24 and 25.

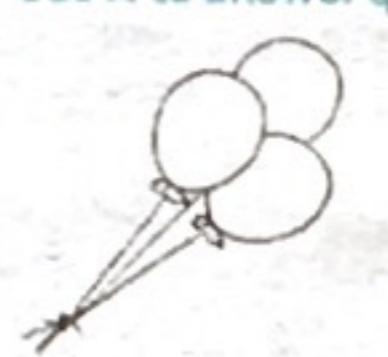

24. To which group of musical instruments does the above device belong?
 25. How can pitch of the above musical device be increased?

26. Why is decanted water not good for drinking?
 27. How does a coin behave when dropped in water?

28. State any one factor that favours the breeding of bacteria.
 29. State any one piece of advice you would give to a person who suffers from constipation.

The diagram below shows balloons flying in air. Use it to answer questions 30 and 31.

30. Which property of air enables the balloons above to fly in air?
 31. State what happens to the balloons above when they are heated by sunshine as they fly.
 32. Which disease is spread to humans by rats?
 33. State any one way in which saliva is important during digestion.
 34. Give any one way of controlling cholera in the community.
 35. Give any one reason why water is not used in thermometers.
 36. State any one method used to control squirrels in the garden.
 37. State any one factor that leads to breaking down of rocks in the environment.

38. Name the form of mechanical energy possessed by waterfalls.
 39. How are crutches useful when giving first aid?

40. Give any one function of blood in the human body.

SECTION B

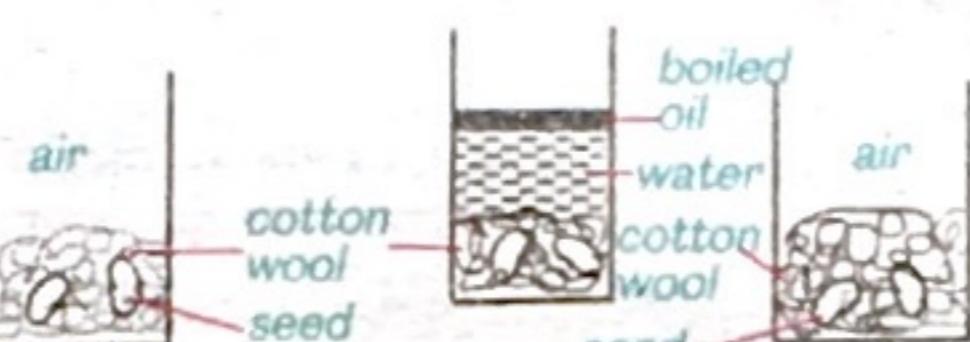

- 41.a) Name any two breeds of chicken kept for egg production.

- b) State any two advantages of keeping poultry over goats.

- 42.a) Mention any two examples of organic manure.

- b) State any two methods of applying fertilizers in the garden.

43. The diagram below shows an experiment about germination. Study it carefully and answer questions that follow.

- a) In which of the containers will the seeds germinate after some days?

- b) Why would the seeds in the container you have identified germinate?

- c) Give one effect of oil on the seeds in container B.

- d) State the role of the condition which is absent in container A during germination.

44. a) What type of change is burning?

- b) State any one condition necessary for burning to take place.

- c) Mention any two other changes that are similar to burning.

- 45.a) To which class of arthropods do the following insects belong?

- i) Spider ii) housefly

- b) Give any two reasons why spiders and houseflies do not belong to the same class of arthropods.

46. The diagram below shows a method of heat transfer. Study and use it

- a) Identify the method of heat transfer shown above.

- b) Name any one medium through which the method of heat transfer above takes place.

- c) Give any two ways in which the method of heat transfer above is important to people.

In the table below, part A shows animals and part B shows their breathing organs.

Part A: Animals	Part B: Breathing organs
Toad	Gills
Cricket	Moist skin
Earthworm	Spiracles lungs
Mud fish	

Match correctly the animal in list A to its breathing organ in list B.

- i) Toad ii) Cricket iii) Earthworm

- iv) Mud fish

47. a) Which communicable disease attacks both rabbits and human beings?

- b) State any two signs of the disease named in a) above.

- c) Give any one way of controlling the communicable disease named in a) above among rabbits.

48. a) Name the force that brings down all objects thrown up.

- b) When a piece of polythene and a pencil are dropped from the same height, which one reaches the ground first? Give a reason for your answer in b) above.

- c) Why do some objects sink in water?

49. The diagram below shows substances commonly used by some people in the community. Study and use it to answer the questions that follow.

- b) Which body organ is greatly affected by the habit named in (a) above?

- c) Mention any one disease that is worsened when a person uses the substances shown above.

- d) State any one danger of the habit named in a) above to a pregnant mother.

51. a) In which way do people get tape worm infestations?

- b) What do tape worm feed on in the human body?

- c) State the function of each of the following parts to a tape worm:

- i) suckers ii) segments

- 52a) Give the main function of the heart in the human body.

- b) To which body system does the heart belong?

- c) State any two health habits that keep the body system above in the normal working condition.

- 53a) Give any two similarities between bacteria and fungi.

- b) State any two differences between bacteria and fungi.

54. The diagram below shows a farm practice done in sheep keeping. Study and use it to answer the questions that follow.

- a) Identify the farm practice shown in the diagram above.

- b) In which season is the above farm practice done?

- c) Why is the farm practice done in the season you have given in (b) above?

- d) Mention the product obtained from the farm practice shown in the diagram above.

- b) State the major cause of the above deficiency disease.

- c) Give any two signs of the above deficiency disease.

- 55a) Which deficiency disease is known as starvation?

Answers to Issue 31
SECTION A

1. Lightning
 2. Fish eats mosquito larvae
 3. Through open cuts and wounds
