.....
.....

37. Why are some objects like aeroplanes streamlined?

.....
.....

38. How are periscopes useful to submarines when in water?

.....
.....

39. Mention one example of a plant fibre.

.....
.....

40. Name one method of storing sound.

.....
.....

SECTION B: 60 MARKS

Questions 41 to 55 carry four marks each

41. a) What is puberty?

.....
.....

b) Give any two body changes common in adolescents during puberty.

- i)
- ii)

c) Mention one emotional change common in adolescents.

.....

42. a) How is malaria spread?

.....
.....

b) How does a fish help in controlling the above disease?

.....
.....

c) Give any two ways through which people can get communicable diseases.

i)

ii)

43. The diagrams below show types of lenses.

a) Name the lenses.

.....
.....

b) Complete the diagram above to show the light rays after passing.

.....
.....

44. a) What is breast feeding?

.....
.....

c) Outline two advantages of breast feeding to a mother.

- i)
- ii)

d) State the food value which is not available in breast milk.

.....

45. The diagram below shows a feeding relationship among living things. Study it carefully and use it to answer questions which follow.

a) What name is given to the relationship above?

.....
.....

b) Which organism in the list above is referred to as;

- i) A primary consumer?.....
- ii) A decomposer?.....

c) Apart from food, give one other way animals depend on each other.

.....
.....

46. What name is given to the following?

a) The thick wall that separates the heart into the left and right side.

.....

b) The lower chambers of the heart.

.....

c) Blood vessels that take away blood from the heart.

.....

- d) The blood vessel that carries digested food from the ileum to the liver.
-

(Rewrite the sentence using:prefer.....)
-
.....
.....

SECTION B: 50 MARKS.

Question 51 to 55 carry ten marks each

51. Read the passage below and in full sentences, answer questions about it.
Many people drink alcohol, but some drink too much and often become addicted to it. Some people depend on it to get through the day-to-day challenges. Alcoholism has many problems associated with it. A person may get accidents if knocked by a vehicle, the brains may be affected, judgment and forgetfulness may increase. Alcohol may poison the digestive system.

Long term alcoholism can damage the liver, causing a disease called cirrhosis.

Alcoholism affects not only the family but also the community. Families may be neglected, have financial problems like debts as most alcoholics spend money on alcohol, there could be lack of harmony in the family as members are neglected, frequent quarrels, children may fail to go school, early marriages for girls due to absence of school fees and violence in families.

Alcoholics think that drinking helps them to forget problems, but in the long run they create even more problems like defiling children, smoking drugs and sometimes fight that result into death.

a) What is the passage about?

.....
.....

b) How dangerous is too much alcohol to an alcoholic?

.....
.....

c) Which body organ is damaged by alcohol?

.....
.....

d) Apart from the family, who else are affected by alcoholism?

.....
.....

e) Why do some girls in some families get married so early?

.....
.....

f) Which disease of the liver is caused by too much alcoholism?

.....

.....

g) Write two problems associated with alcoholism according to the passage.

.....

.....

h) Suggest a suitable title for the passage.

.....

.....

i) Give one word of group of words similar in meaning to "harmony"

.....

.....

52. The notice below was hung on the staff notice board of Kadugala Primary School. Study it carefully and answer questions about it.

STAFF MEETING! STAFF MEETING!

j) By whom was the notice written?

.....
.....

53. Below is a poem. Read it carefully and in full sentences answer the questions that follow.

Defilement, defilement!
How shameful you are to the public
Why don't you spare our young children?
Imagine, a young girl below the age of ten,
Being defiled by a fifty-year old man

Defilement, defilement!
Spare us as well as our bright future,
The sugar mummies and daddies,
Roaming all over schools and homes,
In search of children to defile,
Why don't you pity the future mothers of this nation?

Defilement, defilement!
You are a cancer to our society
I can't imagine even a teacher defiling a child
Instead of protecting her from the wolves
Surely, where should our children seek refuge?
If those who should care for them have not thought
about their rights?

Fellow country men and women,
The time is now to rise up,
And defend the rights of our children
I call upon all responsible citizens,
And all religious leaders,
As well as the government,
To preach and enforce the laws
Against the violation of children's rights.

(By Busungu Juliet)

Questions.

a) What is the poem talking about?

.....
.....

b) Who is the writer of the poem?

.....
.....

c) How many stanzas does the poem have?

.....
.....

d) How old is the defiler according to stanza two of the poem?

.....
.....

e) Who defiles young children according to stanza two of the poem?

.....
.....

f) What advice is the writer giving to his countrymen?

.....
.....

g) Give another word or group of words to mean the same as the following words underlined in the poem.

i) violation.....

ii) defend.....

h) Why do sugar daddies move from place to place?

.....
.....

i) Suggest a suitable title for the poem.

55. In the space provided below, write a short composition about your school. In your composition, mention the name of the school, where it is located, the teachers and other staff in the school and also write at least two things you love about your school.

END

HILLSIDE PRIMARY SCHOOL
PRE-PRIMARY LEAVING EXAMINATIONS
2022
MATHEMATICS (SET EIGHT)
Time Allowed: 2 Hours 30 Minutes

Index No.

Random No.	Personal No.

Candidate's Name..........**Stream.....**

Candidate's Signature.....

EMIS No.....

District Name.....

Read the following instructions carefully:

1. The paper has **two** sections: **A** and **B**.
Section A has 20 questions and Section B has 12 questions
2. Answer **all** questions. All answers to both sections **A** and **B** must be written in the spaces provided.
3. **All** working must be done using a blue or black ball-point pen or fountain pen. Any work written in pencil other than graphs and diagrams will not be marked
4. No calculators are allowed in the examination room.
5. Unnecessary changes in work may lead to loss of marks. Any handwriting that cannot easily be read may lead to loss of marks.
6. Do not fill anything in boxes indicated: "**For Examiners' Use Only**" and those inside the paper.

FOR EXAMINERS' USE ONLY

TOTAL		

SECTION A: 40 MARKS

Answer **all** the questions in this section
Questions **1** to **20** carry two marks each

1. Work out: 120×8 .

2. Simplify: $5p - 4p + 2p$.

3. Find the product of $\frac{3}{4}$ and $1\frac{1}{2}$.

4. How many lines of folding symmetry are in the figure below?

5. For how long did a motorist take to travel a distance of 210km at a speed of 84km/hr. without resting from town A to town B?

6. Work out $-4 - -5$ using the number line below.

7. Change 1000_{two} to decimal base.

8. What number in least form gives 5 as a remainder when divided by either 8 or 12?

Q. Given that $D \cup E = \{1, 2, 3, 5, 7, 11\}$, $D \cap E = \{2, 3, 5\}$ and $D-E = \{11, 7\}$. Find $n(E)$.

TQ. A cuboidal tank 80cm by 70cm by 120cm is $\frac{2}{3}$ full of water. Find the amount of water needed to fill the tank.

11. Change 12:43pm to 24 hour clock system.

12. $74n$ is directly divisible by 3. If the sum of the digits is 15. Find the value of n .

13. David borrowed Sh.840,000 from Samuel and the two agreed on an interest rate of 7% p.a. After a certain period, David realised that he owed Samuel Sh.957,600. For how long did David stay with Samuel's money?

14. Calculate the perimeter of the figure below. (use $\pi = \frac{22}{7}$)

15. Abdu made a profit of Sh. 200 on each of the 19 plates he sold. At how much did he buy the plates if he got Sh. 38,000 after selling all the plates?

16. The diagram below shows the location of three villages; Naalya, Kireka and Kira.

Find the bearing of Kireka from Naalya.

17. Seven books cost Sh. 10,500. Find the cost of 5 similar books.

18. Apilli had 0.25 of a cake. He gave 0.4 of it to Bwete. What fraction of the cake did Apilli remain with?

19. Calculate the exchange rate in Uganda shillings at which the bank bought 150 US dollars to give Sam Ug Sh. 577,500.

20. A box of mangoes weighs 20.25kg. The empty box weighs 2.25kg. If each mango weighs 30grams, how many mangoes are in the box?

SECTION: B (60 MARKS)

Answer all questions in this section.

Marks for each part of the question are indicated in the brackets

21. (a) Work out: $\frac{2x+1}{3} = \frac{x+8}{2}$. (03 marks)

(b) If 4 minus $3(h - 2)$ equals 1. Find the value of h . (02 marks)

22. Out of 50 fishermen, 39 use either nets (N) or hooks (H). 20 use nets, 27 use hooks, m use both nets and hooks while others do not use nets or hooks.

(a) Study the Venn diagram below and complete it. (03 marks)

(b) Find the value of m . (02 marks)

(c) What is the chance of selecting a fisherman who does not use nets or hooks? (01 mark)

23 (a) Write 504 in Roman Numerals. (01 mark)

(b) Convert 103_{five} to binary.

(03 marks)

24. The diagram below shows a semicircle enclosed in a rectangle ABCD. The area of the shaded area is 21 m^2 and length AB is twice BC.

(a) Calculate the diameter of the semicircle.

(04 marks)

(Use $\pi = \frac{22}{7}$)

(b) Find the area of the rectangle ABCD.

(02 Marks)

25. In a school, $\frac{3}{4}$ of the number of pupils in upper primary is equal to $\frac{1}{2}$ of those in lower primary. The school has 400 pupils in upper primary. Find the total number of pupils in the school. (04 marks)

26. Namatovu bought all the following items from one seller.

6 apples at Sh. 2000 for 3
500g of beans at Sh. 4000 per kg.
A 10kg bag of posho.

If she paid Sh. 20000 for all the items, find the cost of each kilogram of posho. (05 marks)

27. The figure below represents a tin full of cooking oil. The distance round the lid(cover) of the tin is 44 cm. (Use π as $\frac{22}{7}$)

(12 marks)

- (a) Find the radius of the tin.

- (b) Find the number of litres of cooking oil in the tin. (13 marks)

28. (a) With the help of a ruler, sharp pencil and a pair of compasses only, construct a triangle RST in which angle RST = 60° , line RT = 8cm and angle RTS = 30° (04 marks)

(b) Measure $\overline{SR} =$ _____ (01 mark)

29. Mugarura drove at an average speed of 72km /hr. and Baguma drove at 120km/hr. The two boys left town X at the same time, at 8: 30 am to go to town Y. Baguma arrived at town Y at 11:30 am.

(a) Calculate the time it took Baguma to drive from town X to town Y.

(02 marks)

(b) Find the time when Mugarura arrived at town Y. (04 marks)

30. In the diagram below, CDEF is a parallelogram, line DP is parallel to EF. Angle PDE = 70° and angle PED = 60° .

(a) Find the value of q . (02 marks)

(b) Find the size of angle PNF. (02 marks)

31. (a) Find the missing numbers in the rectangles to complete the
addition statement below. (03 marks)

$$\begin{array}{r} \boxed{} & 8 & 6 \\ + & 3 & 9 & \boxed{} \\ \hline & 9 & \boxed{} & 1 \end{array}$$

(b) Simplify: $n^8 \times n^6 \div (n^3 \times n^7) + n^0$ (02 marks)

32. The table below shows marks recorded by a teacher for a test that was done on a day when half of the pupils in the class were absent.

Marks	20	45	90	f
No. of pupils	g	4	1	2

(a) If the class has 9 boys and 11 girls calculate the value of g.
(02 marks)

(b) Find the value of f if the mean mark of the test was 50 marks.
(03 marks)

END
