**Bukedde**

YOUR GUIDE TO A BETTER LIFE THROUGH EDUCATION

1. Work out:  $44 + 16$

2. Find the value of  $73.48$

3. Write  $9.2\text{m}^2$  in  $\text{cm}^2$

4. Find the next number in the sequence:

1, 9, 25, 49, 81, -----

5. The mean age of 4 women is 46 years and the mean age of 6 men is 51 years.

What is the mean age of ten people?

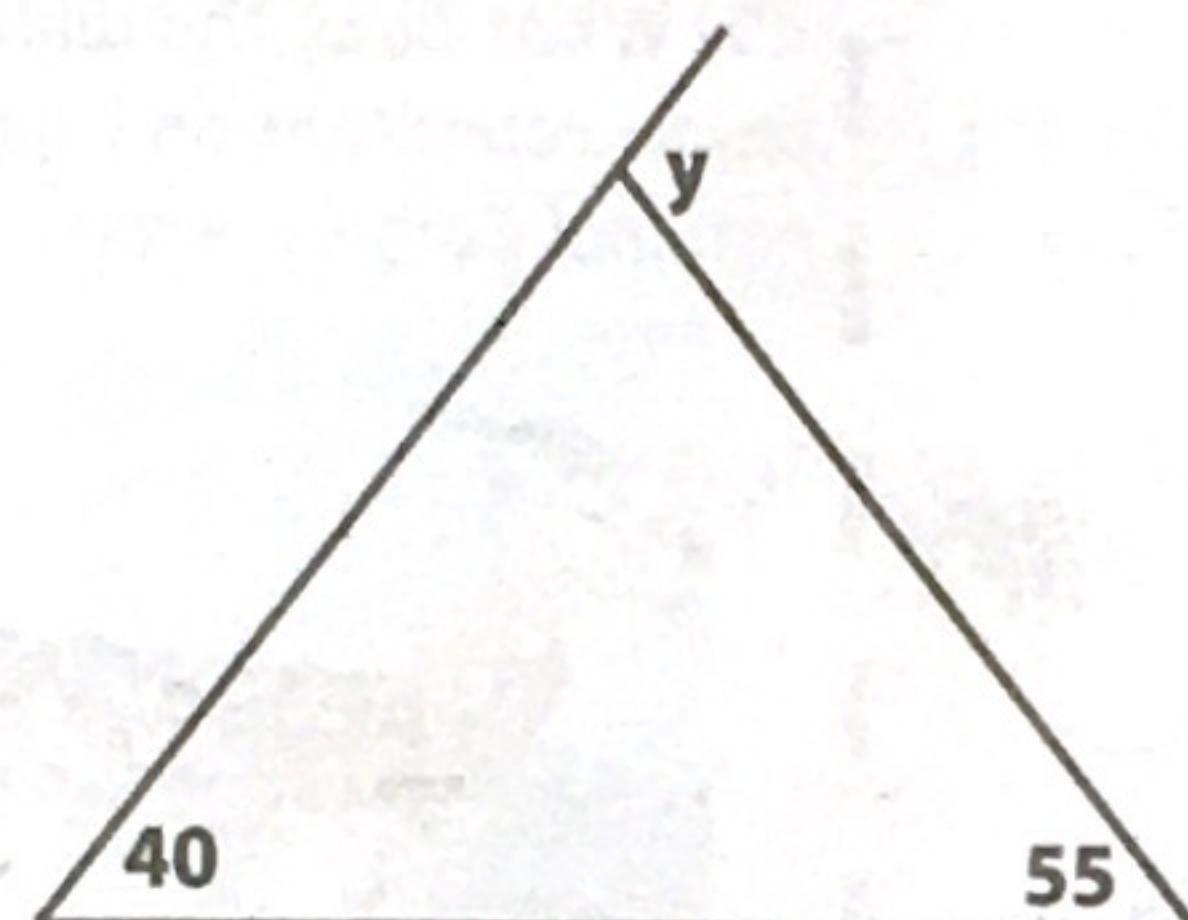

6. If  $\frac{1}{4}$  kg of rice cost sh.3600, find the cost of  $3\frac{1}{2}$  kg.

7. If a dice is tossed once, what is the chance that a composite number will show up?

## SECTION A

8. What is the value of  $y$  in the figure below:

9) Work out using distributive property:  $(239 + 17) \times (761 + 17)$

10. Work out:  $11_{\text{two}} \times 11_{\text{two}}$

11. Solve:  $\frac{1}{4}q + 4 = 20$

12. Simplify:  $4y - 2k + 2y - 5k$

13. Using prime factors, find the LCM of 12 and 15.

14. A lesson that took  $2\frac{3}{4}$  hours ended at 7:45pm. At what time did the lesson start?

15. Write 72840.0 in scientific notation

16. How many 250gram packets can you obtain from a sack of maize of 3 kg?

17. If  $c = -4$  and  $b = 7$ , find the value of  $2c + 2b$

18. If today is Monday, what day of the week will it be after 37 days.

19. Hala covered a distance of 120 km in  $\frac{3}{4}$  hours. Find his speed.

20. Express  $\frac{16}{40}$  as a decimal.

21. The ratio of the interior angle of a regular polygon to its exterior angle is 7:2.

a) What is the size of its exterior angle?  
b) How many sides has this polygon?  
c) How many right angles has this polygon?

22. Mr. Bwana bought the following commodities from a certain supermarket:

2kg of meat at sh.14,000 per kg

$1\frac{1}{2}$  kg of beans at sh.4,200 per kg

750grams of salt at sh.2,000 per kg.

If Mr. Bwana was given a discount of 10% on meat, how much money did he pay for all the above items?

23. Akello shared a piece of sugarcane among his children such that  $\frac{1}{3}$  of it was given to her 3 girls. The remaining sugarcane was given to her sons such that each son got  $\frac{1}{6}$  of the sugarcane.

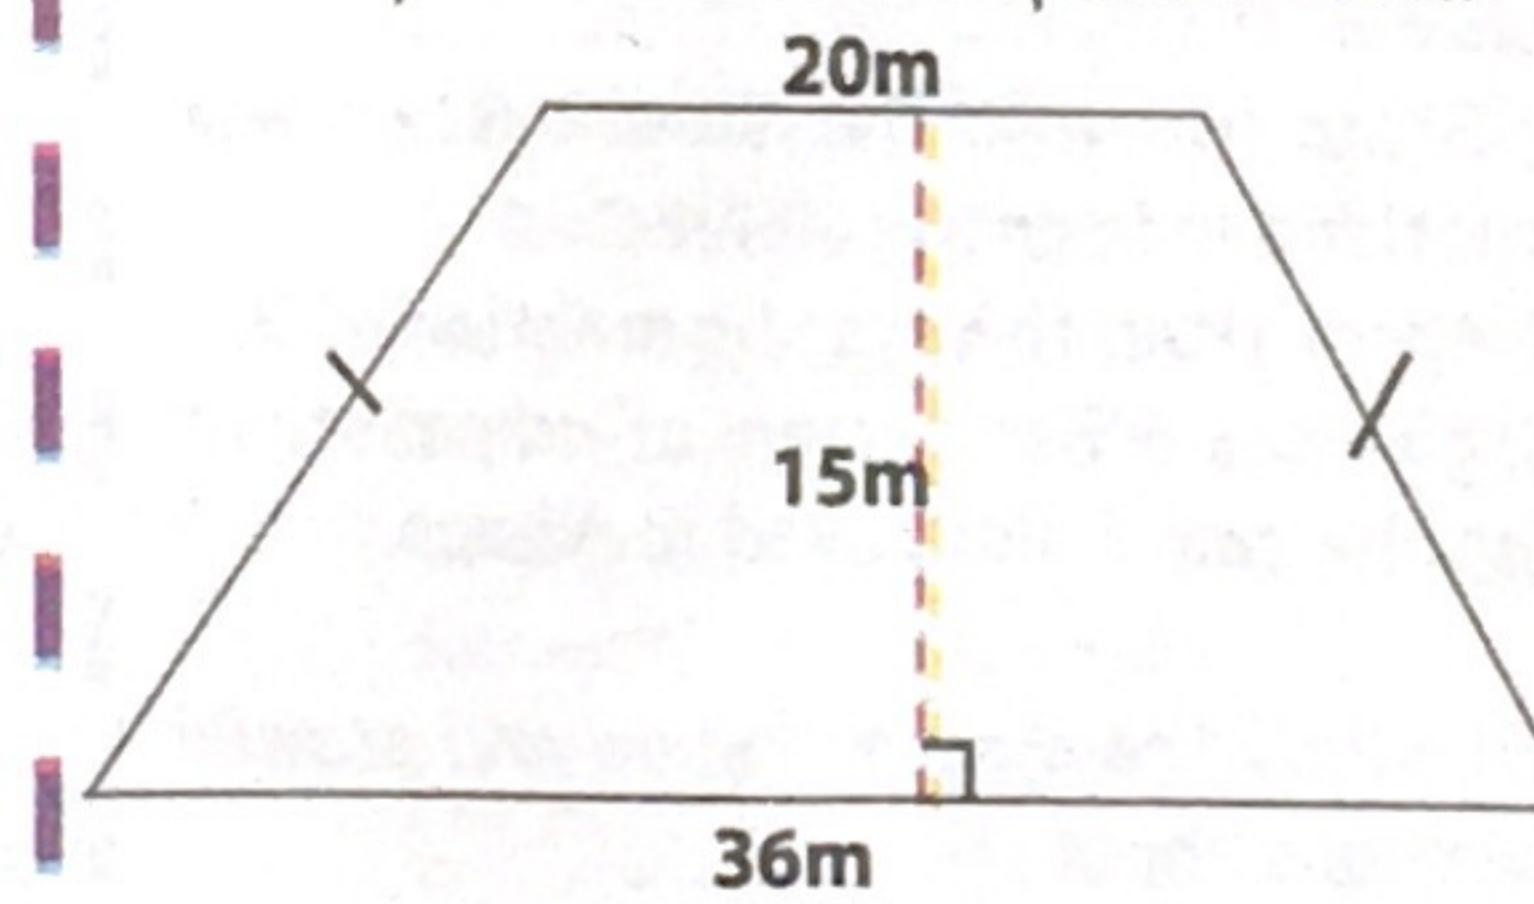

How many children shared the sugarcane altogether?

24. Mutengesa scored the following marks in a series of tests:  
 $41, 27, y + 28, 49 - 2y, 32$ . If his mean

mark was  $33 + y$ :

- a) Find the value of  $y$ .
- b) Find the median of Mutengesa's marks.

25. Study the isosceles trapezium below:

- a) Find the area of the figure.
- b) Work out the perimeter of the figure.

26. A taxi left the village at 7:20am and reached town at 9:56am covering a distance of 260km.

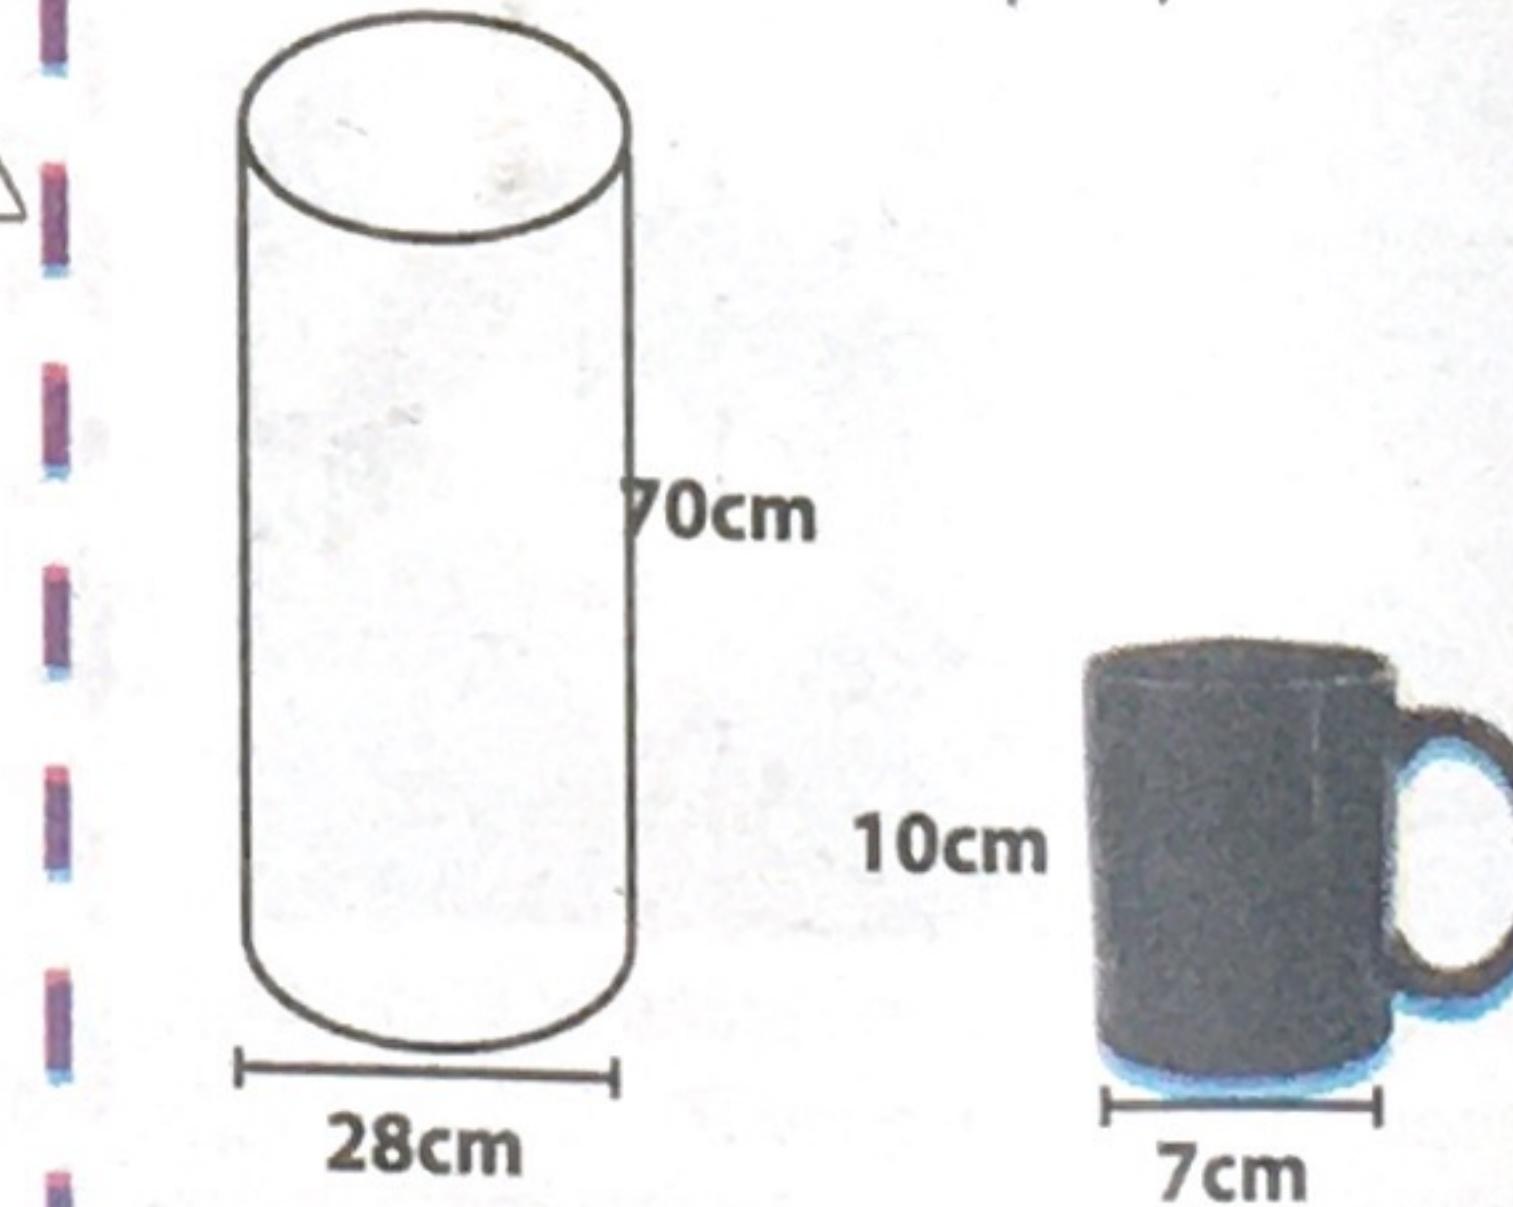

- a) How long did the taxi take to reach town?
- b) Calculate the speed of the taxi in km per hour.

- 27 a) Write 455 in Roman numerals.
- b) Bamuteze has 777 cows on his farm. Round off the number of

cows he has to the nearest hundreds.

- c) Work out:  $4 - 6 = (\text{mod } 7)$

28. A cylindrical tank of diameter 28cm and height 70cm was filled with juice. A small cylindrical cup of diameter 7cm and height 10cm was used to serve juice to the guests who attended the party. If each guest got 2 cups, find the number of guests who attended the party.

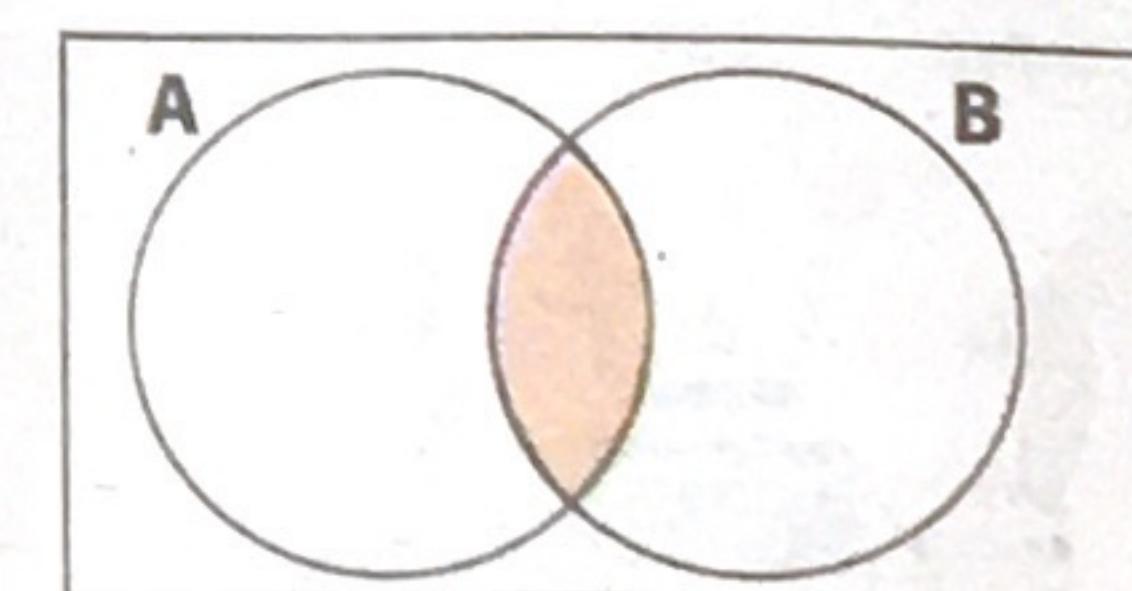

- 29. a) How much principle will yield an interest of sh.60,000 when banked for two years at an interest rate of 5%?
- b) Find the amount that will be on the account at the end of the period.

30. Using a ruler and a pair of compasses only, construct a parallelogram PQRS in which  $PQ=7\text{cm}$ ,  $QR = 6\text{cm}$  and angle  $PQR=135^\circ$

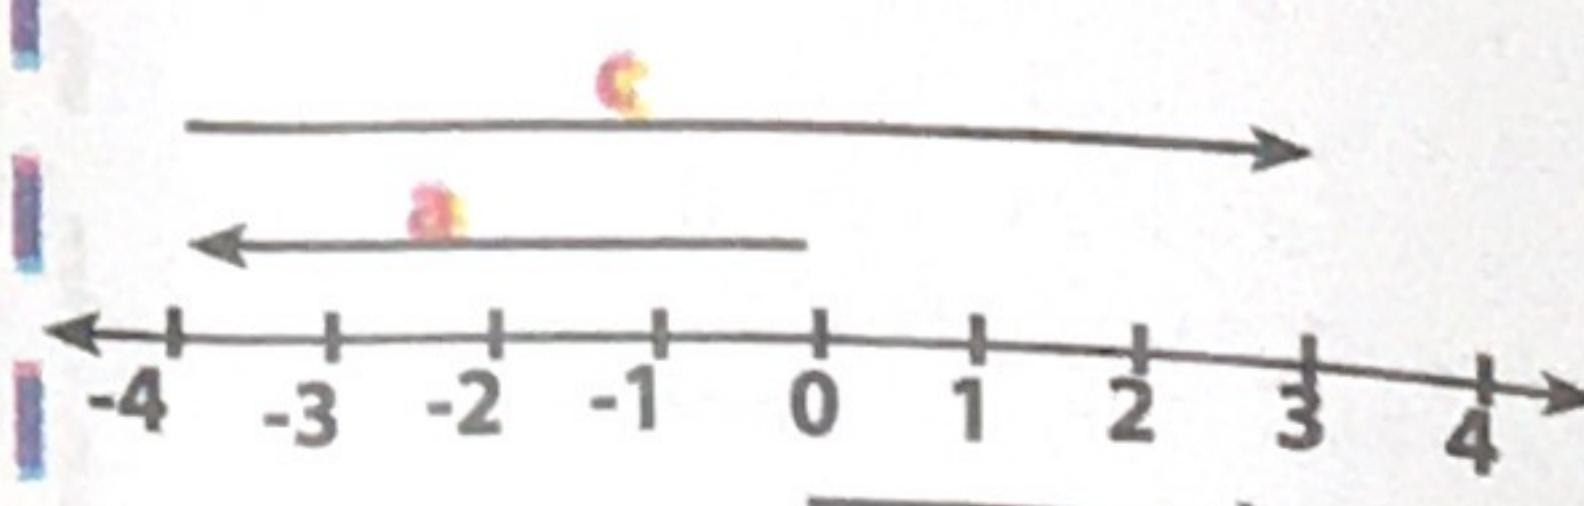

b) Measure the length of diagonal PR

31. a) Set  $A = \{0, 2, 4, 6, 8\}$   $B = \{1, 2, 3, 4, 5, 7\}$ . Represent the two sets on the Venn diagram below.

b) How many proper subsets can you obtain from a set of five elements?

32. Study the number line below and answer the questions that follow:

- a) State the value of each letter:  
i) a    ii) b    iii) c

Pass PLE QUIZ on **Bukedde TV**

Dr

DON'T MISS WATCHING PASS PLE QUIZ  
ON BUKEDDE TV 1 EVERY SATURDAY 10:30AM - 11AM

**Bukedde**

1) State the type of rainfall received in high altitude areas.

2) How are P.E lessons important to school children?

3) Which type of transport is not used by passengers?

4) State any one social effect for the coming of Arabs to East Africa.

5) Which type of natural vegetation is suitable for setting up national parks and game reserves?

6) Why are children encouraged to be humble before elders?

7) How did the Baganda express their unhappiness to the British when Sir Andrew Cohen exiled Kabaka Edward Mutesa II to Britain?

8) How are hawkers useful in a community?

9) How is Arusha town important in the daily running of EAC?

10) Give one reason why people's rights should be re-

### SECTION A

spected.

11) Which term is used to mean the period when the sun is overhead the tropics?

12) Which element of wind is measured in Km/hr?

13) State the mineral mined from lakes; Victoria and Kyoga?

14) Name one raw material got from swamps that is used for making crafts.

15) How do good roads promote economic development in a country?

16) State any one effect of a sea breeze in an area.

17) How did the early explorers to East Africa pave way for

colonisation of Africa?

18) Give any one advantage of decentralisation.

19) What challenge will Emilina a foreign tourist face if she is given a map of Uganda without a key, on her arrival at the airport?

20) Which attribute of Uganda as a nation is found on a fifty thousand shilling note?

21) How do family heads ensure security at home?

22) Name any one crop grown in the velds of South Africa.

23) What type of tax is charged on plastic cups and plates made in Uganda?

24) State any one danger of planting big trees in a school compound.

25) What does the animal drawn below represent on Uganda's national Coat of Arms?

- a) How do people get food?  
b) State any two problems people face while trying to get basic needs.  
c) How do children abuse their right to food?

32) Below is Uganda's national attribute, use it to answer questions about it.

- a) What do the words on the attribute above symbolise?  
b) Use letter K to mark the feature that symbolises Uganda's traditional instrument for culture and communication.

- c) Write down any two national documents on which the attribute above appears.

33) Use the diagram below to answer questions that follow.

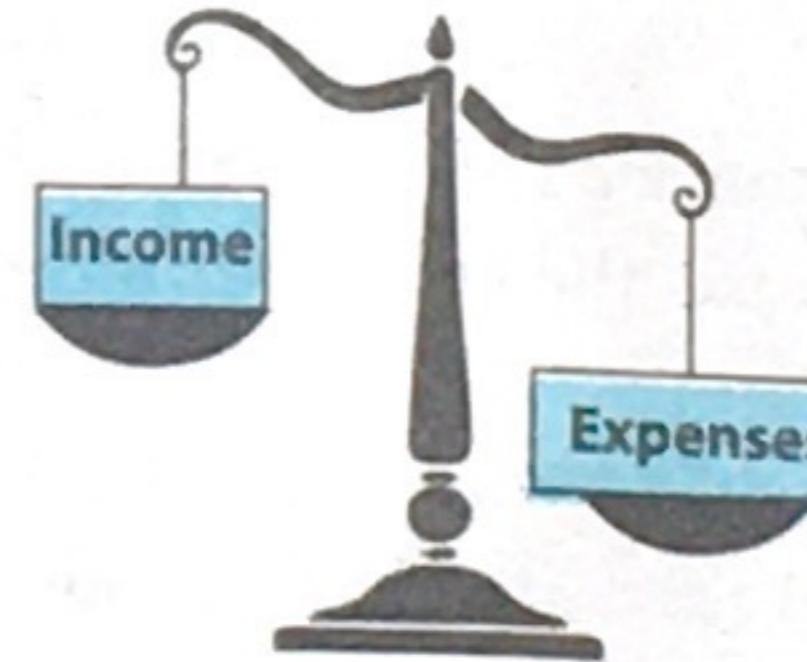

- a) How has the above human activity affected forests in Uganda?  
b) State two ways people can conserve wood fuel.  
c) How does population increase in a country lead to increase in the cutting down of trees?

- 34a) Which system of administration did the French use in their territories during colonial rule?  
b) State two ways the above system was practised in French colonies.

- c) Apart from the system mentioned in a), give one other system of administration the colonialists used in Africa.

35) Study the diagram below and answer questions about it.

- a) Why is the above type of budget not good for a country?  
b) Give two reasons why it is important to prepare a budget before spending.  
c) Which pillar of the government prepares a national budget?

- 36a) Write UNRA in full.  
b) State duties of UNRA  
c) Give any one challenge facing UNRA

37a) Mention the stage of stone age when early started living in caves.

b) What enabled early man to start living in caves?

c) State any two sources of history

38a) What title is given to the head of Commonwealth Organisation?

b) Name the head of Commonwealth organisation.

c) State two ways member states benefit from the above organisation.

- 39) EITHER: a) State two ways Christians show respect to their place of worship.  
b) State two ways some people show disrespect to places of worship.  
OR) a) State two ways Moslems show

### FOR QUESTIONS 39 TO 40 ANSWER EITHER CHRISTIANITY OR ISLAM ONLY BUT NOT BOTH

- a) respect to their holy place of worship.  
b) State two ways some people show disrespect to places of worship.

40a) Either: Write any two Christian voluntary organisations which provide

- counselling services to married men and women in church.  
b) Apart from providing counselling services, give two other services provided to needy people by voluntary organisations.  
OR) State two voluntary organisations

- which provide assistance to needy Moslems in Uganda.  
b) State two forms of assistance provided to needy Moslems by voluntary organisations.

FOR NUMBERS 26 TO 30  
ANSWER EITHER  
CHRISTIAN OR ISLAM  
QUESTIONS BUT NOT BOTH.

26) Either: How is praying important to Christians?  
OR) How is salat important to Moslems?

27) Either: Why did God tell Abraham to sacrifice his son Isaac?

OR) Why did Allah instruct Prophet Ibrahim to sacrifice Ismail?

28) Either: Mention any one talent Christians use in Church during service.  
OR) Mention any one talent Moslems use in a Mosque during salat.

29) Either: Name the last prophet in Christianity.  
OR) Name the last and greatest prophet in Islam.

30) Either: State one way Christians prepare for Easter Season.  
OR) State one way Moslems prepare for Eid- Aduha.

## SUB-SECTION I

For questions 1 - 5, use the correct form of the given word to fill the space.

1. Our house was ..... by the Chinese. (build)
2. Unless he comes ..... than usual, he won't get a front seat. (early)
3. Jalia is ..... than her young sister. (shy)
4. I have seen my books but they haven't seen ..... yet. (they)
5. They were complaining ..... because their problem had already been solved. (unnecessary)

For questions 6 - 10, fill in the most suitable word.

6. Hardly had Luka seen the snake ..... he screamed.
7. Duck is to duckling as owl is to.....
8. The ..... who were watching the match became wild and threw bottles at the referee.
9. Mr. Mukasa, the baker, ..... the dough himself whenever he is to bake wedding cakes.
10. The lion ..... so loudly that it could be heard two miles away.

For questions 11 and 12, use the given words in meaningful sentences.

11. Court .....
12. Coat .....

**41.** Read the passage below and answer the questions in full sentences.

Rehema's elder sister, Faridah, sat PLE last year. She didn't get good results and this was attributed to her inappropriate preparations. She didn't manage her time well. She would spend most of her time partying, watching TV and visiting friends instead of revising. So she had to repeat P.7 this year and to her dismay, she is in the same class with her sister, Rehema!

This was an eye opener to Rehema. She didn't wait to fail the exams to repeat the class. So she decided to start her preparations early. She spent her first term holiday with her cousin revising lower work and writing summaries. Then when the second term began, she drew herself a timetable. This included house chores and revision time.

At school, she completes all her exercises in time and does all her corrections. When she goes back home in the evening, she does the house chores quickly and then goes to her bedroom to revise. Her parents and siblings are supportive. They don't disturb her as she revises but they sometimes take her a cup of tea, juice or supper.

Since she is left with very little time, she has already bought all the things she will use during PLE. These include a geometry set, a ruler, a pen, a packet of cartridges and two handkerchiefs. Unfortunately, Faridah is not bothered at all. What about you?

## SECTION A

Arrange the words in alphabetical order for question 13 and 14

13. chosen, charger, cheese, chance, Christian
14. drawer, hostess, whether, angrily, shore

Re-write the following sentences giving a single word for the underlined group of words.

15. The waitress gave us the card showing the food and prices as soon as we entered the restaurant.
16. The pedestrian crossed the road in a hurry when she heard the siren of an approaching ambulance.
17. We shall visit our friends in the ninth month of the year.

Give the abbreviations of these words.

18. By way of .....
19. Of the clock .....
20. afternoon .....

For questions 21 - 23, re-write each sentence giving the singular form of the underlined words.

21. The chimneys had not been repainted for a year.
22. Our sisters' children have been promoted to primary four.
23. The menservants refused to work until the salaries were paid.

Arrange the following words to make meaningful sentences.

24. nephew gone your has where?
25. grounded car year a her has for been.

For questions 26 and 27 provide a question tag.

26. He dared to fight a lion, .....?
27. Samson cannot drive a tractor, .....?

For questions 28 and 29, re-write the sentences giving the opposites of the underlined words.

28. Her mother-in-law has been taken to

court.

29. The boar was so hungry that it ate one of its piglets.
30. Herman got good marks because his work was unreadable.

## SUB-SECTION II

In questions 31 - 50, re-write the sentences as instructed in brackets.

31. Sali is very young. He can't take himself to school. (Join using: ..... too ..... to ...)
32. Immediately the traffic police officer blew the whistle, the pedestrians crossed the road. (Re-write using: ..... no sooner .....)
33. The drunken man fell into a trench. He got bruises on the face. (Join using: ..... not only .....)
34. Janet might go to Shoprite or to Delicos. (Re-write using: ..... either ...)
35. It is not necessary for the bur-sar to go to the bank. (Re-write using: ..... needn't .....)
36. The miners were trapped in the mine. They called the headquarters for help. (Re-write beginning: Trapped ....)
37. Despite the fact that their wed-ding cake was made by an expert, it was tasteless. (Re-write using: ..... but ....)
38. Luwuge is a very tall man. Lusalabato is a tall man. (Join using: ..... taller....)
39. The maid woke up early. She wanted to clean the house before the family was up. (Join using: ..... so that ....)
40. Ceaser did his work very well. He won the writers' competition. (Join using: ..... so ..... that ....)

## SECTION B

## QUESTIONS

1. Who are the two sisters in the story?
2. In which class was Rehema last year?
3. With whom did Rehema spend the first term holi-day?
4. Why do you think Faridah didn't get good marks in PLE?
5. Is Rehema a boarder or a day scholar? Give a reason to support your answer.
6. From where does Rehema carry out revision after doing the chores?
7. Mention one way how the members of Rehema's family support her in her preparations.
8. Who is younger Rehema or Faridah?
- 9a. Write the full form of PLE as used in the story.
- 9b. According to the passage, in which term is Rehema?
10. Give the passage a suitable title.

## 42. The sentences below are jumbled. Rearrange them to form a story about Juma, the Butcher.

1. Juma is very careful when transporting the animals.
2. Sometimes he buys them from nearby places.
3. And sells beef and chevon.
4. These trucks have parti-tions in which each animal is put separately.
5. Juma is a butcher and carries out his work in Kawempe.
6. Unlike other people in the same business, he transports his animals in big trucks.
7. He buys them from dif-ferent places.
8. He slaughters the cows and goats he sells himself.
9. And at other times, he travels as far as Kyazanga to buy these animals.
10. This prevents them from hurting each other on their way to market.

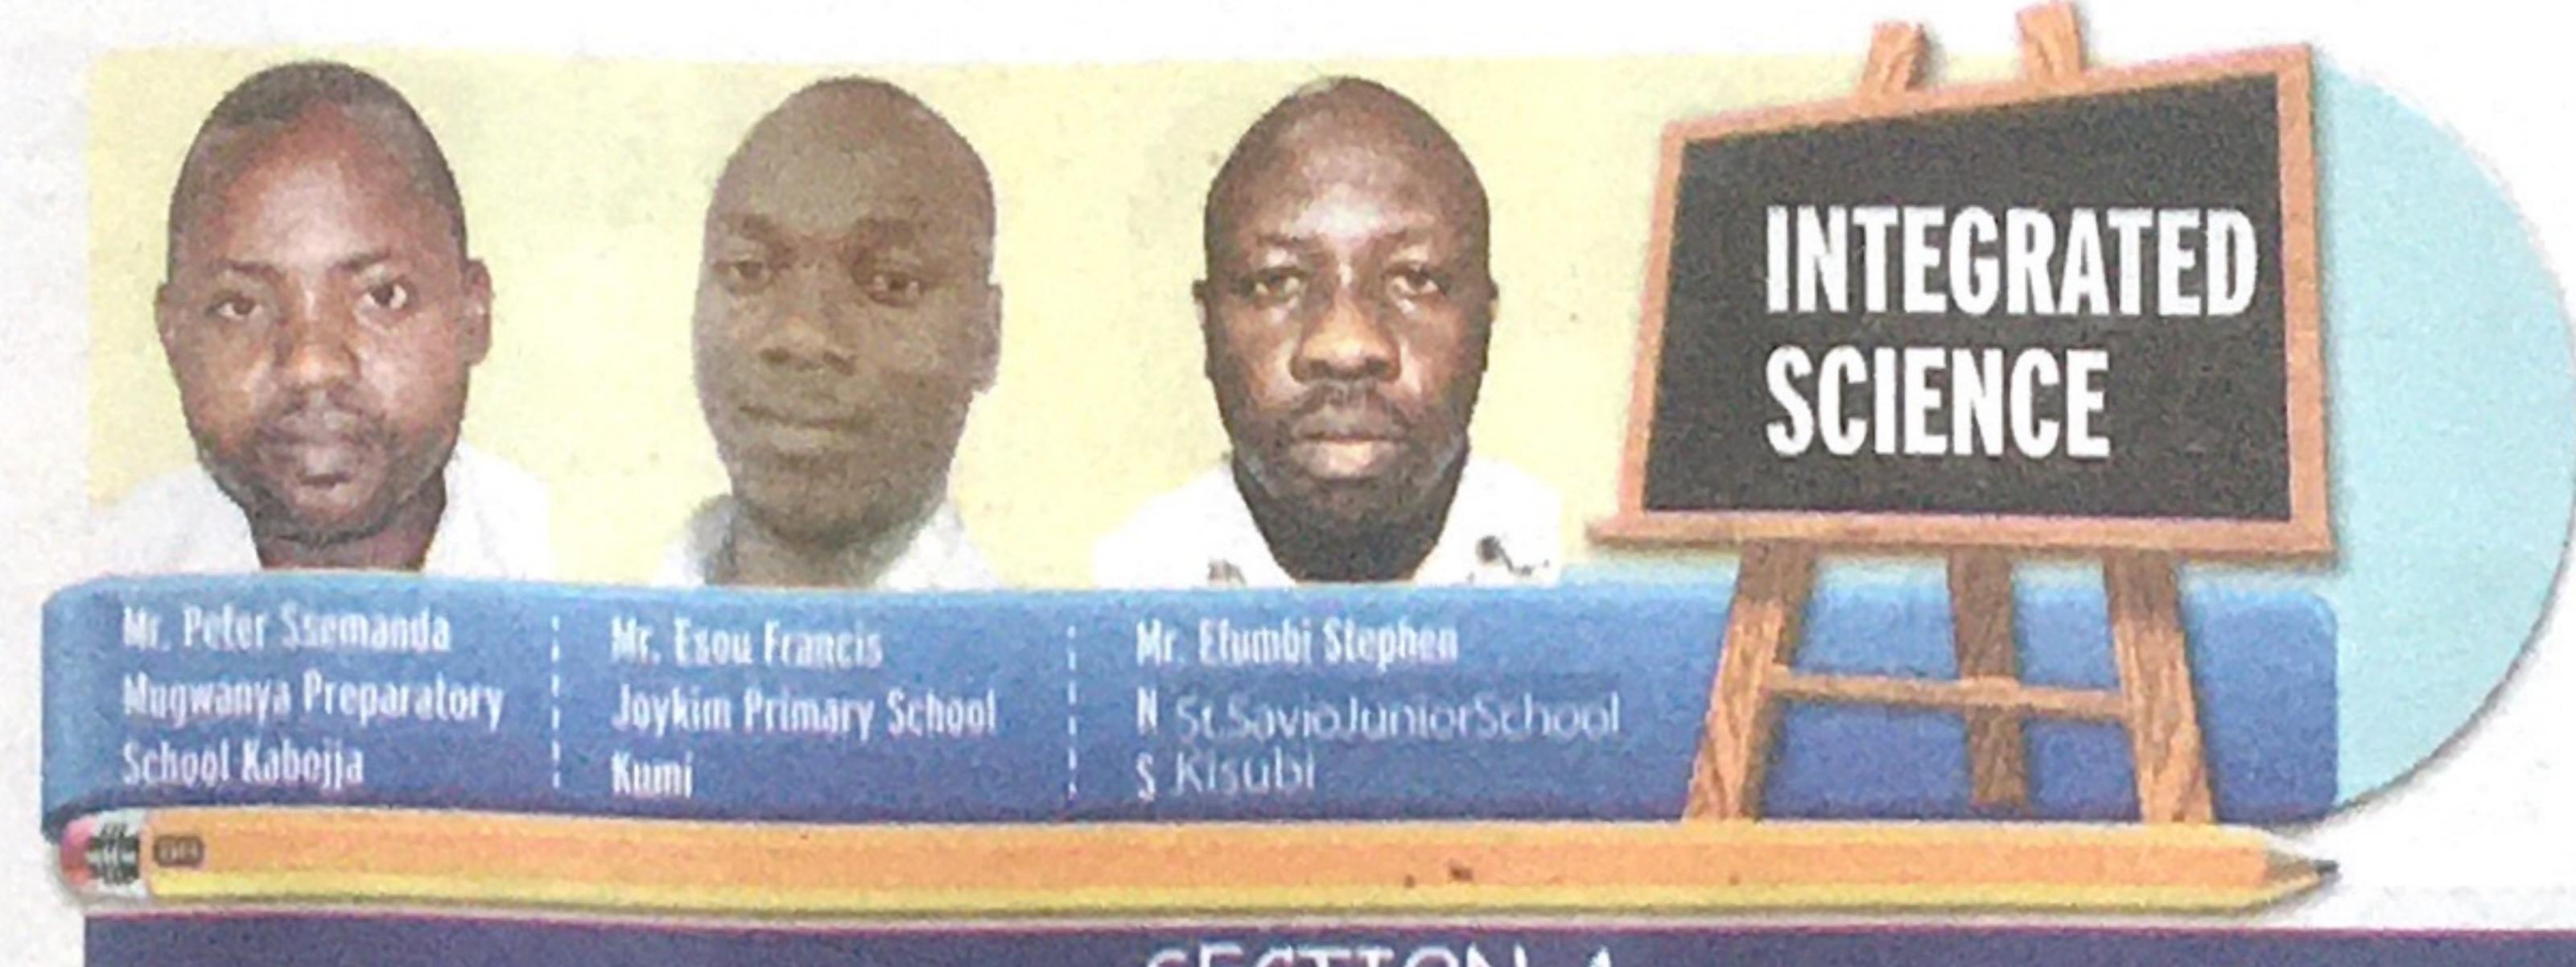

43. The table below was drawn by Mr. Nkwangwa, the classteacher of P.7 Zebra, as he received the pupils at the beginning of term. Study it carefully and answer the questions about it in full sentences.

NAME	AMOUNT PAID	DATE PAID	BALANCE	COMMITMENT DATE
Annet Lumu	850,000/=	13.9.2017	5,000/=	1st October
Betty Luzinda	855,000/=	1.9.2017	Nil	.....
Charles Kato	750,000/=	13.9.2017	.....	14.10.2017
Duncan Wasswa	750,000/=	13.9.2017	.....	14.10.2017
Fausta Namara	.....	.....	.....	.....
Tom Maaso	855,000/=	11.9.2017	Nil	.....
Zam Birabwa	500,000/=	9.9.2017	355,000/=	15.10.2017

## QUESTIONS

1. How are the pupils' names arranged on the table?
2. Who prepared the above table?
3. For which class is the table?
4. How many pupils' names were recorded?
5. What is the table about?
6. According to the table, how much money was each
- pupil supposed to pay?
7. For which term do you think is this table? Give a reason to support the answer.
8. Which children do you think are siblings?
9. What do you think hap-pened to Fausta Namara?
10. How much money did Charles Kato pay?

- Give the type of change where burning is involved.
- State the major reason why oil is always poured in vehicle engines.
- How is thinning useful in maize growing?
- Give the importance of ironing clothes.
- State one effect of alcoholism to an individual.
- Give the difference between evaporation and condensation.
- How are bees useful to a crop farmer?
- State one way of making water clean.
- Give a reason why people keep cats in their homes.
- Name one disease of rabbits that affects poultry.
- State the law of magnetism.
- Why is wind regarded as an important energy resource?
- How do bed bugs protect themselves against their enemies?
- What type of immunity do babies get from mother through breastfeeding?
- State the substance that helps to reduce friction in a joint.
- How are insulators of heat important in our daily life?
- Mention any one way of preventing animal extinction.
- In which way is a fuse similar to a switch in an electric circuit?
- How does the use of a diaphragm help to promote child spacing?
- Mention any one reason why the youth practise sex deviations in the

community.

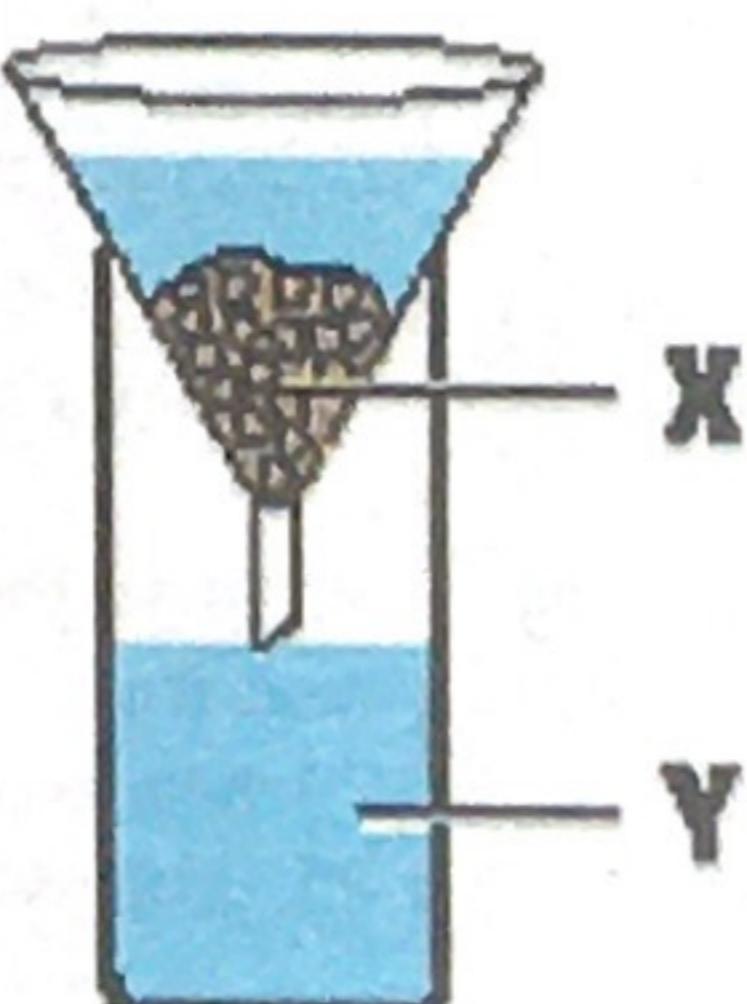

Study the diagram below and use it to answer question 21.

- Name any one visible characteristic that enables the bird above to feed on flesh.
- State any one physical change that takes place during the process of distillation of alcohol.
- Give any one reason why lightning arrestors are put on tall buildings.
- How do farmers improve on the local breeds of birds on the farm?
- Mention the difference between birds and mammals in their way of reproduction.
- Give any one crop seeds that provide the body with proteins when

eaten.

The diagram below shows a method of separating mixtures. Use it to answer questions that follow.

- Name the method of separating mixtures shown above.
- What scientific name is given to the substance X?
- State one danger of evaporation in the environment.
- How are ovules similar to the ova in human beings?

- Why is distilled water not good for drinking?
- Name one block in a village food path.
- In which way are Saanen goats similar to Friesian cows?
- Give one condition that aids rusting of metals.
- Identify any one health habit that should be practised by a P7 pupil before eating food.
- Give one example of a health concern.
- Identify any one social practice that can lead to the spread of HIV/AIDS.
- Give any one way snakes are different from other reptiles.
- How are arteries able to withstand the pumping force of the heart?
- Why is it a good practice to go for regular body check-ups in the hospital?

## SECTION B

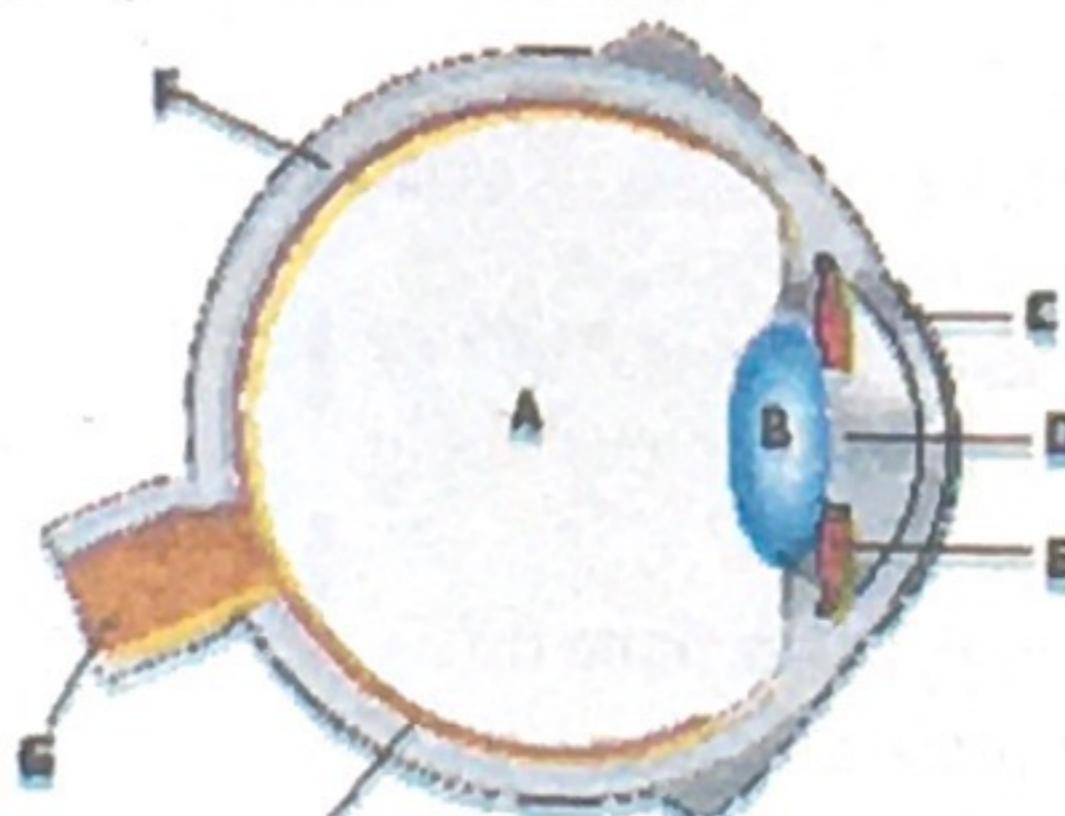

- a) Mention any two milk products obtained by fermentation process.  
b) State any one disadvantage of hand milking  
c) Give the main food value got from taking milk.
- a) How do family members benefit from carrying out PHC at home?  
b) Mention any two principles of PHC followed by people in the community.  
c) Which element of PHC helps to check infant mortality in the community?
- a) What are renewable resources?  
b) Why is it good to use renewable resources over non-renewable resources in the environment?  
c) Give any two examples of renewable resources in the environment.
- The diagram below shows ball bearings in a machine. Use it to answer questions that follow

- How do ball bearings reduce friction in the part of the machine shown above?
- Apart from using ball bearings, mention any two other ways of reducing friction.
- State any one danger of having too much friction in the moving parts of a grinding mill.
- How are the following organs of the digestive system important to the body?  
i) The liver      ii) the pancreas  
b) In which way is the detoxification process important to the human body?  
c) Mention any one danger of eating dry food without proper intake of water.

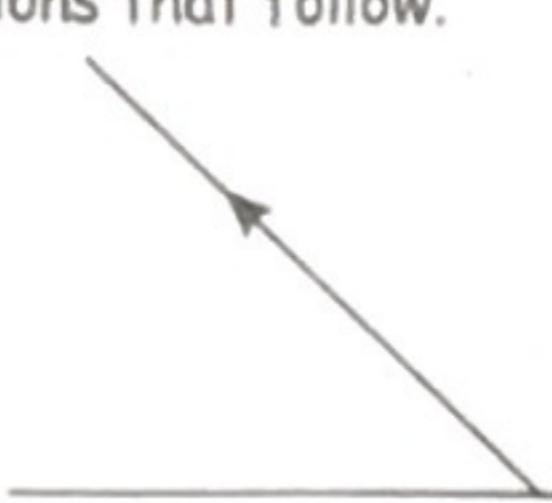

- a) State any two ways plants depend on the non-living components of the environment.  
b) Mention any one reason why farmers prefer planting crops alongside trees in the same garden  
c) Give any one disadvantage of mixed farming on the farm.
- a) How is osmosis important in plant life?  
b) In which part of a root does osmosis take place?  
c) Apart from carrying out osmosis process, name any two other functions of the roots to a plant.
- a) Mention any two ways of ensuring proper food hygiene  
b) State any two dangers of keeping bad food hygiene at home.

- The diagram below shows a human eye. Use it to answer questions that follow

- Name the part of the eye labelled with letter A  
b) Where on the organ above are images formed?  
c) State the function of part labelled with letter E  
d) Mention any one disorder of the above part of the body.
- a) Why do small objects produce high pitch of sound?  
b) Mention any two factors that increase sound in a musical instrument  
c) State any one way of reducing the pitch of a string of a guitar

- a) Name any two uses of soil to man.  
b) Which type of soil has the lowest capillarity?  
c) Mention one way of conserving soil.
- The diagram below shows reflection of light when it strikes a plain mirror. Use it to answer questions that follow.

- a) Complete the diagram above to show the behaviour of light on the mirror.  
b) Calculate the angle of reflection formed in case the incident ray hit the surface at an angle of 55° in the diagram above.  
c) Why is the angle of incident equal to the angle of reflection?
- a) Give any one reason why people are encouraged to have a rest after a meal.  
b) Mention any one way of ensuring proper health in a home.  
c) Why is it important to collect information about immunisation in the community  
d) State any one way the government has addressed the issue of poor water supply in communities.

- Match the items in A with those in B correctly.
 

A	B
a)First class lever	- Product of force and distance
b)Double inclined plane	- Pivot is between the load and effort
c)Work	- For moving things upwards
d)Slope	- Wedge
- a) Give two ways of controlling weeds in the garden.  
b) How does weeding control the following:  
i) pests.  
ii) diseases.

## ANSWERS TO ISSUE 47

- Rat
- Epidermis.
- Electric bell.
- Help in pollination.
- Help to stop fires.
- Charcoal, firewood.
- Has hooks.
- Enable the bird to overcome friction in air during flight.
- During erosion the top fertile soil is carried away.
- Lead to death.
- A butterfly is not a vector while a cockroach is a pest.
- Cholera, typhoid.
- Removes food particles that can rot and cause a bad breath.
- Cross pollination.
- Gets nectar and pollen.
- To protect themselves from cuts.
- Banana bacterial wilt.
- Ruminants.
- Regular spraying and dipping.
- Leads to soil erosion.
- Parallel venation.
- Prevents germs from the infected person to reach the healthy one.
- Lead to the breeding of mosquitoes.
- Dislocation.
- Air in the nose is filtered, warmed.
- Brushing the teeth every after meal.
- Turn food into soluble substances that can be used by the body.
- Scurvy, rickets, beriberi.
- Lead to dehydration
- Physical change.
- Diphtheria, whooping cough, tetanus.
- Spread river blindness to people
- Oxygen
- Maize flower blocks its spiracles which prevent it to breathe.
- Pulley.
- By reducing the amount of force used.
- Brain.
- Pivot joint
- For protection.
- Destroys farmer's crops.
- Section B.**
- a) Simple leaf -one leaflet on one stalk while compound leaves have many leaflets on one main stalk.
- Pinnate/ bi-pinnate.
- Parallel leaf
- a) Wind instruments.
- By vibration of air blown in.
- Violin/ trumpet/ flute.
- Head, thorax abdomen.
- Have jointed legs.
- This is the doctor's written guide about the use of a drug.
- Prevents taking under or overdose, to get correct treatment.
- The disease became resistant to the drug.
- Help in fermentation of alcohol, help in the manufacture of some milk products.
- septrin, penicillin.
- This is the provision of the necessary conditions for the eggs to hatch.
- Presence of moisture, oxygen, warmth.
- Artificial incubation.
- They all make their own food.
- moss/ferns, Cedar and maize.
- Non flowering plants.
- Burdizzo.
- Castration.
- Oiling its joints, keeping it in a dry place.

## ANSWERS TO ISSUE 47

- Rat
- Epidemis.
- Electric bell.
- Help in pollination.
- Help to stop fires.
- Charcoal, firewood.
- Has hooks.

- h) Have jointed legs.
- i) This is the doctor's written guide about the use of a drug.
- j) Prevents taking under or overdose, to get correct treatment.
- k) The disease became resistant to the drug.
- l) Help in fermentation of alcohol, help in the manufacture of some milk products.
- m) septrin, penicillin.
- n) This is the provision of the necessary conditions for the eggs to hatch.
- o) Presence of moisture, oxygen, warmth.
- p) Artificial incubation.
- q) They all make their own food.
- r) moss/ ferns. Cedar and maize.
- s) Non flowering plants.
- t) Burddizo.
- u) Castration.
- v) Oiling its joints, keeping it in a dry lace.

49. a) to prevent food poisoning, to prevent some diarrhoeal diseases.

b) Keeping food in clean containers, preparing food in clean places.

50. a) i) provide food to the foetus

ii) Supplies food and oxygen to the growing foetus

iii) Absorbs shock

b) Foetus is the growing baby in

the womb between 8 weeks to birth while an embryo is the growing baby in the womb from 0 to 8 weeks.

51. a) Poor hygiene

b) Lead to dehydration, lead to death.

c) Taking a lot of fluids.

52. a) Avoid climbing trees, not playing in tall grass, handling

hot things with care.

b) To overcome death, to reduce pain.

53. a) Birds of prey.

b) Has a good strong sight for detecting its prey from a distance, has a sharp hooked beak, has sharp curved talons.

c) Hunts and kills poultry.

54. a) attending health

seminars, rehabilitating the sick pupils.

ii) Brushing the teeth, bathing, washing clothes.

55. a) This is the process by which plants make food.

b) i) get food.

ii) Get oxygen for respiration.
