### SECTION B: 50 MARKS

51. Read the passage below carefully and then answer, in full sentences, the questions that follow.

Last Friday, I wanted to prepare myself early for the journey to school. The distance from home to Bulo Primary School is quite long. So I woke up as soon as the cock crowed. After putting on my uniform. I went to meet Musa Okot with whom we usually walk to school.

Musa is my friend because he is a skilled footballer just like I am. Besides, he always has balls which he makes out of banana fibres and sometimes out of polythene stuff. We would play football at school during break and lunch periods. That morning, he had just woven one out of the balloons. He carried the ball in his bag.

Along the way as we walked, Musa suggested, "Let's stop and play with the ball first. It is Friday and teachers are not usually early at school." Without a second thought, I agreed to the idea. We would play for only a short while after all. Football and I were inseparable.

We started to play at the roadside at once. Some other boys joined us and the game became interesting. No sooner had everyone started to enjoy the game than the worst happened. Musa passed the ball to me using a header. It bounced to the ground and I missed it. The ball then rolled to the middle of the road! I quickly ran to collect it. Little did I know there was a speeding truck coming. All the boys shouted, "No!" but I did not know why. It is the loud hooting of the truck that drew my attention. I was just a few seconds away from a bad accident. At that time, I remembered my mother's words: "never to play along the road". I got shocked. My legs were too heavy to run to the side of the road.

Luckily, the truck driver braked and someone got me out of the way. What a narrow escape! It is at this time that I realised we had made a big mistake to play at the roadside. I swore never to repeat it.
