Lives are crying because it's not clean,
Earth is dying because it's not green,

Earth is our dear mother, don't pollute it,
She gives us food and shelter, just salute it...

With Global warning, its in danger,
Let's save it by becoming a strong ranger...

With dying trees and animals, it's in sorrow,
Make green today and green tomorrow,

With melting snow, one days it will sink,
How can we save it? Just think,

Trees are precious preserve them,
Water is a treasure, research it...

Reduce pollution and make her a queen.

Classmates, recently my grandfather came to live with us in Mukono Town for a while. While with us, he told us a number of interesting stories. Read one of those stories he narrated.

A farmer looking for a source of water for his farm bought a well from his neighbour. The neighbour was cunning, tough and refused to let the farmer take water from the well. On asking, why he replied, "I sold the well to you, not the water," and walked away.

This upset the farmer. He didn't know what to do. So he went to Birbal, a clever man, for a solution. Birbal was also an emperor. The emperor called the farmer and his neighbour and asked why the man was not letting the farmer draw water from the well. The cunning man said the same thing again, "I sold the well, not the water". So he cannot take my water."

To this Birbal replied, "All that sounds fine to me. But if you have sold the well and the water is yours, then you have no business keeping your water in his well. Remove the water or use it all up immediately. If not, the water will belong to the owner of the well."

Realizing that he had been tricked and taught his lesson, the man apologized and left.

"Why grandchildren," Grandfather said, "cheating will not get you anything. If you cheat, you will pay for it soon enough".
