.....
.....

49. There is almost no water in the tank.

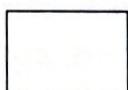

(Rewrite the sentence using:hardly.....)

.....
.....

50. Anita will buy a laptop. Anita will buy a desktop.

(Rewrite the sentence using:either....or.....)

.....
.....

SECTION B

Questions 51 to 55 carry 10 marks each

- 51. Read the passage below carefully and then answer the questions that follow in full sentences.**

Osinde is a famous baker in Pajwenda Trading Centre. He has the biggest bakery in this trading centre. He bakes items like bread, buns, cookies, cakes and so on. Osinde has a lot of customers from both far and near. They love him because he offers them good customer care and affordable items. The customers are so many that Osinde opens the bakery at 5:30am and closes at 9:00pm.

Osinde is assisted by his two sons, Ochwo and Obonyo. Their main work is to attend to the customers especially those who buy in plenty. These two boys are so hard-working that they don't rest unless they cleared all the customers. This is the more reason as to why their father loves them. He has taken them to the best school in the country.

Osinde is not highly educated but he knows how to make the best use of the resources. He does not spend money anyhow. He has opened an account in Equity Bank. Every Saturday, he deposits at least five million shillings into his bank account. His aim is to make further investments. Osinde is indeed blessed.

Questions

- 1. What is the passage about?**

.....
.....

- 2. Where is Osinde's bakery located?**

.....
.....

3. Why does Osinde have many customers?

.....
.....
.....

.....
.....

d) From which countries do they get their materials?

.....
.....

e) Which customers are given transport?

.....
.....

f) Where is the company located?

.....
.....

g) Who wrote the above notice?

.....
.....

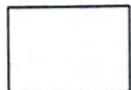

h) Write in full.

a) Tel.....

b) etc.....

i) When was the notice written?

.....
.....

53. Read the poem below carefully and then answer in full sentences the questions that follow.

Yes, the day has come!
To celebrate and rejoice together!
Grandma, eighty years old!
Everybody gathered to congratulate her.

Oh! We thank God. Sons, daughters,
grandchildren of grandma,
From far and near,
Relatives, in-laws, neighbours,
Have come along with gifts of all kinds.

Oh! We glorify God.
Plenty of food to eat,
Plenty of drinks to all,
Lots of talking and laughing,
Lots of singing and dancing, everybody happy.

Oh! We praise God.
What a great day it is!
What a wonderful day it is!
Grandma's heart at peace,
United with all her dear relatives.
Oh! We love God.

Peninah Birungi

(a) What is the poem about?

.....
.....

(b) Where have the sons and daughters come from?

.....
.....

(c) Why do you think people came with gifts of all kinds?

.....
.....

.....
.....

8. What happens to the volume of water when it freezes?

.....
.....

9. Give one example of a disease spread through tick bites in cattle.

.....

10. Name any one disease that affects the muscular skeletal system.

.....
.....

11. Identify the type of energy possessed by a rolling stone.

.....
.....

12. How is a cotyledon useful to germinating maize grain?

.....
.....

13. How can a mother protect her children from deficiency diseases?

.....
.....

14. Where in the digestive system are fats first chemically digested?

.....
.....

15. Mention any one method used to obtain clean water from dirty water.

.....
.....

16. Name the sexually transmitted disease that cause blindness in unborn babies.

.....
.....

17. In the space below, draw an electric switch.

.....

18. What is echo?

.....
.....

19. Give one way of controlling soil erosion in hilly areas.

.....
.....

20. Identify the smallest bone in the human body.

.....

21. State any one way of controlling malaria in a home.

.....
.....

22. What type of skeleton does a dog have?

.....

Below is a diagram showing a burning candle. Use it to answer the questions 23 and 24.

23. Name one form of energy produced at X.

.....

24. Give one danger of energy produced at X.

.....

25. Why does a fish die when it has been removed from water?

.....
.....

26. State one use of weeds to a farmer.

.....
.....

27. State one example of a food taboo in the community.

.....
.....

28. Name the component of blood that is destroyed by sickle cells.

.....
.....

29. Of what use is the washing of hands with clean water and soap?

.....

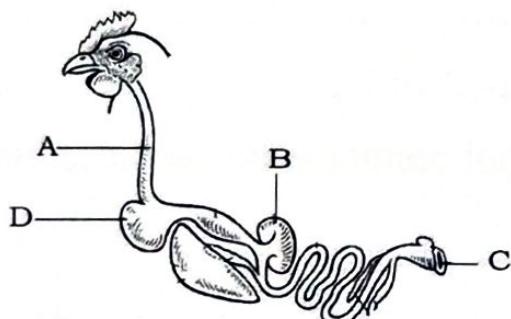

30. A leaf falls from a tree. Name the force that enables a leaf to fall from a tree.

.....

31. How are incisor teeth adapted to their function?

.....
.....

32. Study the diagram and answer questions that follow

Name the part marked with letter D.

.....

33. Where does filtration of blood occur in the kidney?

.....

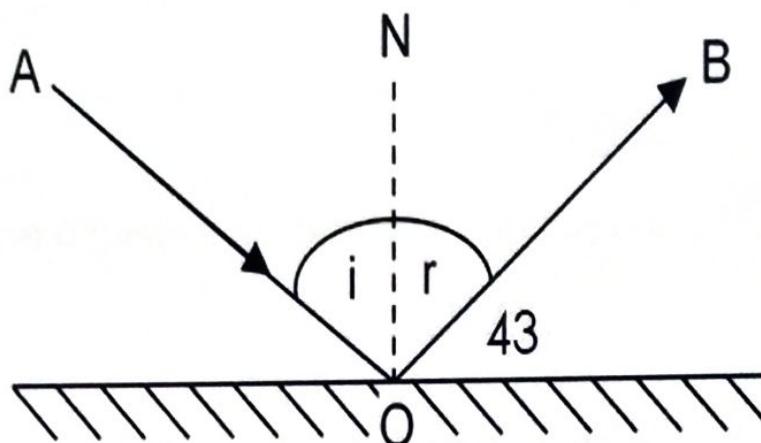

34. Mention any one system used to rear goats.

.....

35. Identify the gas that bubbles out when a bottle of soda is opened.

.....

36. Find the size of the angle marked i.

37. Name one body organ protected by the rib cage.

.....

38. What is soil erosion?

.....

.....

39. What group of invertebrates have jointed legs and segmented bodies?

.....

39. Name any one breed of goats kept for milk production.

.....

40. Why is a sugar cane not regarded as a stem tuber yet it stores its food in the stem?

.....

.....

SECTION B: 60 Marks

Questions 41 to 55 carry four marks each

41(a) Give one importance of saliva in the process of digestion.

.....
.....

b) Where in the digestive system does absorption of food occur?

.....

c) Mention one disorder of the digestive system

.....

(d) What do we call the dietary fibres that promote peristalsis and proper working of digestive system?

.....

42.(a)What are nutritional diseases?

.....
.....

(b)Mention two examples of nutritional deficiency disease

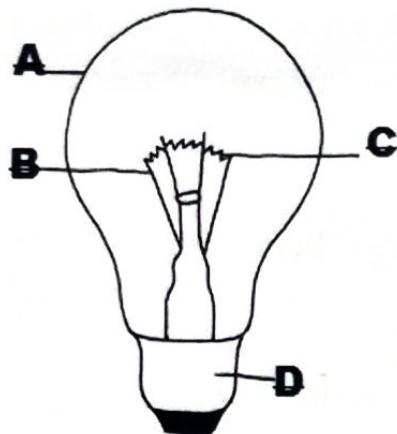

(i).....

(ii).....

(c) What is the best way of preventing such diseases?

.....

43. The diagram below shows an electric bulb. Use it to answer questions that follow.

(a) What is the function of part marked with letter **B**?

.....

(b) How is part marked with letter **C** adapted to its function?

.....

.....

(c) Identify two forms of energy produced by the above working
Bulb.

(i)

(ii)

44.(a) Give any two agents of soil erosion.

(i)

(ii)

(b) Name any one cause of soil erosion

.....

.....

(c) How can farmers control soil erosion on hilly areas?

.....

45 The table below shows different tropisms and their stimuli fill in the missing answers

Tropisms	Stimuli
.....	sunlight
Geotropism
.....	water
Chemotropism

46 (a). Define the term Magnet.

.....

.....

(b) Write down two methods used in making magnets.

(i)

(ii)

(c) Give one way in which magnets area used in hospitals.

.....

47 (a) Name the germ causes COVID-19.

.....
.....

(b) Write down two health habits done to control the spread f COVID-19.

- (i).....
(ii).....

(c) How does the use of face masks help in the prevention of COVID-19?

.....
.....

48 (a) Name the weather instrument used to measure the amount of rainfall received.

.....
.....

(b) Give a reason why people are advised to:

(i) Put the above weather instrument in (a) in open places.

.....
.....

(ii) Raise the weather instrument 30cm above the ground?

.....
.....

49a) Write down two examples of social insects.

(i).....

(ii).....

(b) Which type of life cycle does a tsetse fly undergo?

.....

(c) In which way are honey bees harmful to people?

.....

.....

50. (a) what is personal hygiene?

.....

.....

(b) How useful are the following in the promotion of personal hygiene?

i) sponge.....

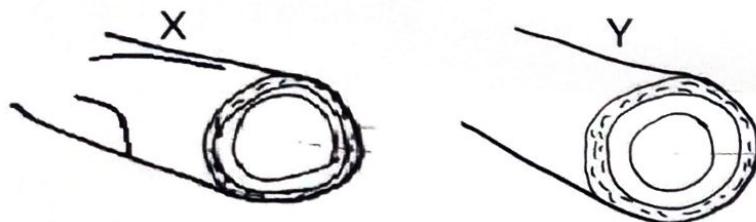

ii) clean water

(c) State one way of promoting oral hygiene.

.....

.....

51. The diagram below shows blood vessels. Use it to answer the questions that follow.

a) Identify blood vessels X and Y.

i) X.....

ii) Y.....

(b) Give **one** structural difference between vessel X and blood vessel Y.

.....
.....

c) Mention the structure present in blood vessel X that prevent back flow of blood.

.....

52. (a) What is apiculture?

.....
.....

(b) Give two reasons why people keep bees.

(i).....

(ii).....

(c) Name the special food the queen bee is feed on.

.....

53. Match the type of electricity in A and the source in B.

List A

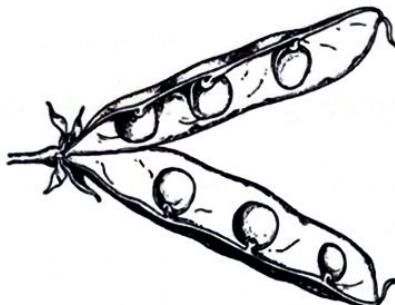

- i) Nuclear electricity
- ii) Hydro electricity
- iii) Solar electricity
- iv) Thermal electricity

list B

- The sun
- Uranium
- Burning fossil fuels
- Fast flowing water

- (i)
- (ii)
- (iii)
- (iv)

54. The diagram below shows a method of seed dispersal. Use it to answer the questions that follow.

(a) Name any two crops that can be dispersed using the above method.

- (i)
- (ii)

(b) How is seed dispersal important?

.....
.....

(c) Name one other type of seed dispersal apart from the one shown above.

.....

55(a) To which group of simple machines does a see saw belong?

.....

(b) How does a bottle opener make the work easy?

.....
.....

(c) Name one force that affects the efficiency of a machine.

.....
.....

(d) Why should machines be oiled and greased regularly?

.....
.....

END

SECTION B: 40 MARKS

1. Work out : $34 + 21$

2. Write 269 in words.

.....
.....

3. Simplify $5p - 3q + 2p + 8q$

4. Change 8kg to grammes

5. Work out: $3 + 7$

6. Find the greatest common factor (GCF) of 9 and 12.
7. Increase 2000 kg by 20%
8. Akidi is 4 times as old as Odong the product of their ages is 64 years, how old is Akidi?
9. Expand 452

10. Using a pair of compasses, a ruler and a sharp pencil, construct an angle of 30° .

11. Work out the mean of $3h$, 7 , $h + 1$ and 4 .

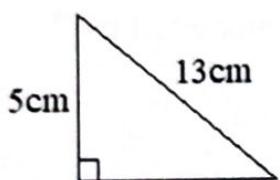

12. 4 men can slash a compound in 9 days. How many men are needed to do the same piece of work in 2 days?

13. What is the 19th triangular number?

14. Given that set $R = \{1, 2, 7\}$, how many subsets has set R?
15. If today is Tuesday, what day of the week will it be after 39 days from now?
16. A motorist covered 80km in 2 hours. Calculate the motorist's speed in km/h
17. A trader sold a belt at sh.2400 and made a profit of sh.400. Calculate the trader's percentage profit.

18. The LCM of two numbers is 90 and their GCF is 3. If one of the numbers is 18, find the second number.

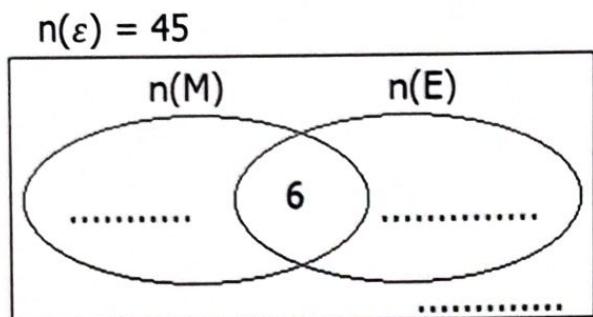

19. Work out the distance around the figure below.

20. Solve for x: $\sqrt{\frac{x+5}{2}} = 4$

SECTION B: (60 marks)

21. In a class of 45 pupils, 30 like mathematics (M), 12 like English (E) only. 6 like both subjects while K pupils like neither subject.
- a) Complete the Venn diagram below **(3 marks)**

- b) Find the value of k **(2 marks)**

22. Gaga, Gege and Gigi shared 140 mangoes in the ratio of 3:2:5 respectively
- a) How many mangoes did each person get **(4 marks)**
- b) How many more mangoes did Gigi get than Gaga? **(2 marks)**
23. a) Work out: $\frac{1}{4} - \frac{1}{6} + \frac{2}{3}$ **(2 marks)**

b) Evaluate: $\frac{0.8 \times 0.6}{0.4 \times 2.4}$ (3 marks)

24. a) Solve for m: $4m - 2 = m + 4$ (2 marks)

b) Musa is 20 years older than Sarah. In 8years' time, Musa will be thrice as old as Sarah. How old is Musa now? (3 marks)

25. Jacob had bank notes numbered consecutively from AP00482 to AP00588.
- a) How many bank notes did he have? **(2 marks)**
- b) If each note was worth sh. 10,000, how much money was it?
(3 marks)

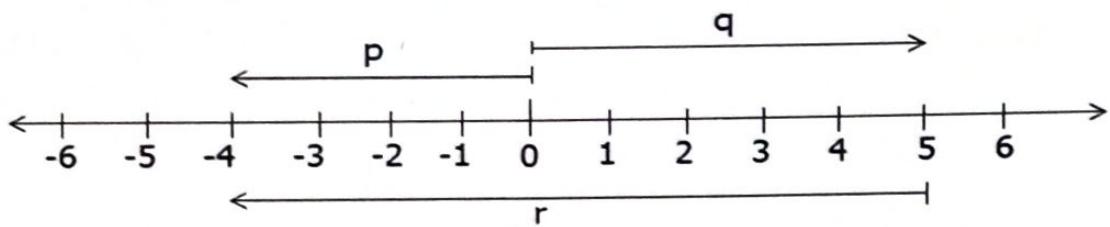

26. Philipa went shopping and bought the following items.

- $1\frac{1}{2}$ bars of soap at sh. 4000 each bar.
- 2 kg of posho at sh.2, 000 per kg.
- 3 litres of cooking oil at sh.12, 000.
- 2 kg of rice at sh.3,000 per kg

a) Work out his total expenditure **(4 marks)**

b) If she was given a discount of sh.2, 000 how much money did she pay? **(2 marks)**

27. Use the number line below to answer the following questions.

- a) Write the integer represented by the arrows. **(1 mark each)**
- i) P ii) Q iii) R
- b) Write a mathematical statement represented on the number line above. **(1 mark)**

28. a) Expand 5234 using power of ten. **(2 marks)**

- b) Work out $(18 \div 3) + (12 \div 3)$ using distributive property. **(3 marks)**

29. a) Using a ruler, pencil and a pair of compasses only, construct a triangle ABC where line AB = 7cm angle ABC = 60° and angle BAC = 45° (4 marks)

b) Construct a perpendicular from C to meet AB at X. (1 mark)

30. A motorist left town P travelling at a speed of 90km/h for 2 hours to town Q. If he returned to town P at a speed of 60km/h.

a) Find the distance between towns P and Q. **(2 marks)**

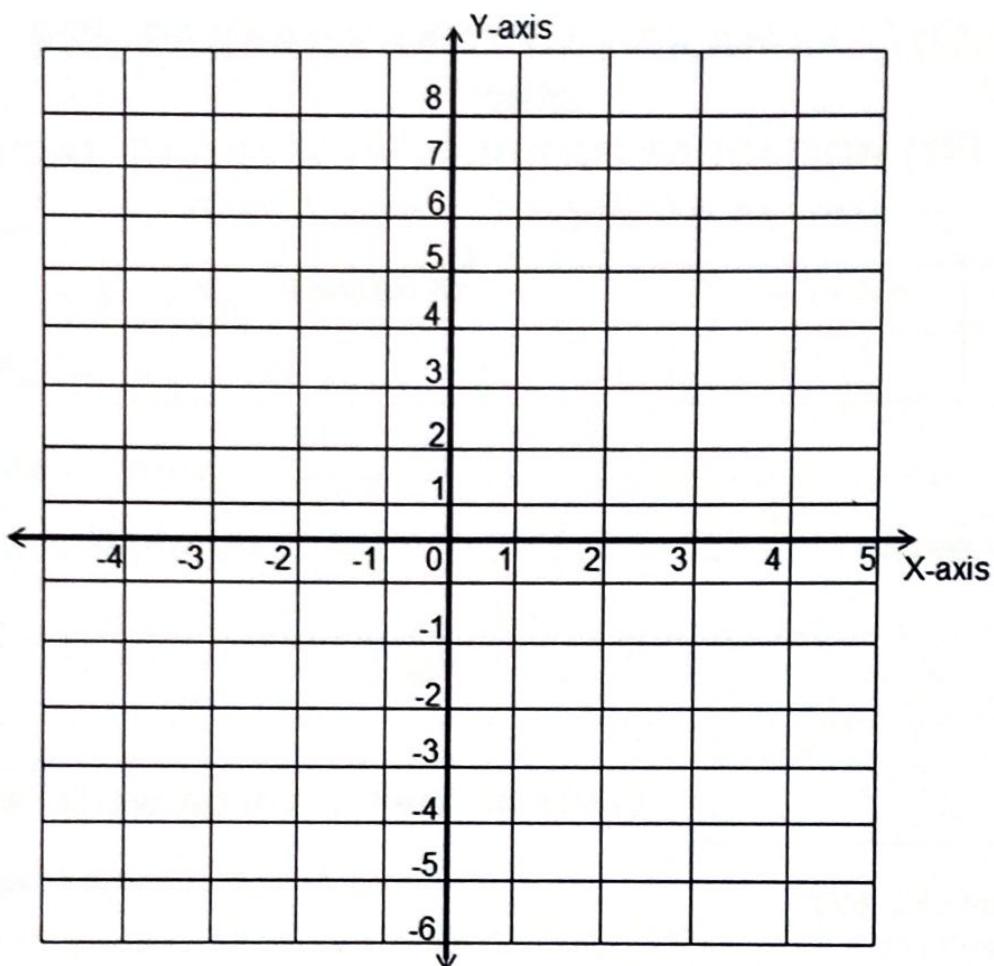

b) Workout the average speed for the whole journey. **(3 marks)**

31. A man spends $\frac{2}{3}$ of his salary on food, $\frac{1}{4}$ of the remainder on fees and saves the rest.

a) What fraction of his salary does he save? **(3 Marks)**

b) If he spends sh. 60,000 as fees, calculate his salary. **(2 Marks)**

32. Use the grid below to plot the points: K (-1 , 5) ,M (3 , -1) , N (-4 , -1)

- a) Join points K to M, M to N, M to N and N to K. **(4 marks)**
- b) Name the figure formed. **(1 mark)**

END

SECTION A: 40 MARKS

Questions 1 to 40 carry one mark each

1. Mention one element of a good map.

.....

2. Why do some people fail to access improved health services?

.....

.....

3. State one importance of culture.

.....

4. What does the symbol below represent?

.....

5. How did Dr. Albert Cook promote health in Uganda?

.....

.....

6. Mention one function of legislature.

.....

.....
